चलते रहना

आयु का कोई भी दौर हो, चलते रहना ही मायने रखता है. कितनी भी आयु हो जाए, पर जो लोग काम करते रहते हैं, वे शारीरिक और मानसिक रूप से अधिक फिट रहते हैं. आयु तो केवल एक संख्या है, मानसिक रूप से उसके बारे में सोचना कोई मायने नहीं रखता है. यह सच है कि वृद्ध शरीर से उतना सक्षम नहीं रहता, पर मन की शक्ति और अनुभव से वह चलता रहता है.

GSK Submits US Regulatory Application For Single-Dose Tafenoquine for Plasmodium Vivax Malaria

GSK and Medicines for Malaria Venture (MMV) today announced the submission of a new drug application (NDA) by GSK to the United States Food and Drug Administration (FDA), seeking approval of single-dose tafenoquine for the radical cure (prevention of relapse) of Plasmodium vivax (P. vivax) malaria in patients 16 years of age and older. If approved, tafenoquine would be the first new medicine for the prevention of relapse of P vivax malaria in more than 60 years, potentially addressing the need for a single-dose and effective medicine for this debilitating disease. The submission follows the decision made by FDA in December 2013 to grant tafenoquine Breakthrough Therapy Designation, an initiative aimed at expediting the development and review times of drugs for serious or life-threatening conditions. The NDA submission includes Phase III data from the previously reported GATHER and DETECTIVE studies conducted by GSK in partnership with MMV. [1] Pauline Williams, Head of Global Health R&D, GSK said: "This regulatory filing marks a significant and historical milestone in our global health efforts.

Complete Gynae, Hepto/Gastro, Ortho, Cardio Diabetic, Nutraceutical & General Range Available

Treating Plasmodium vivax malaria is particularly challenging because the parasite can lie dormant in the liver resulting in relapses. Poor compliance to primaquine in real-world settings can lead to higher relapse rates than those seen in the controlled setting of clinical trials, so a single dose treatment is an attractive proposition. GSK and MMV have been working together since 2008 to develop single-dose tafenoquine as an alternative to primaquine. If approved, tafenoquine will potentially become an important tool to help eliminate P vivax malaria for good. We look forward to the outcome of the filing. David Reddy, CEO of Medicines for Malaria Venture said, "MMV and GSK are committed to the development of single-dose tafenoquine for relapsing malaria. Following a long-standing partnership, we have now reached the exciting milestone of regulatory filing. This is significant because without treatment to stop the relapses, infected patients live with the constant threat of malarial symptoms returning without warning. Relapsing malaria thereby contributes significantly to the burden of disease in affected countries. The world has been waiting over 60 years for a new medicine for this indication. A single dose medicine would be unprecedented. Tafenoquine is not approved for use anywhere in the world. GSK plans to progress regulatory filings in other countries in 2017 and 2018.

दीपक जलाने से होते हैं, ये फायदे

हिंदु परंपरा में पूजा के दौरान दीपक जलाने की मान्यता है। दीपक वह पात्र है, जिसमें घी या तेल रख कर सूत में ज्योति प्रज्वलित की जाती है। पारंपरिक तौर पर केवल मिट्टी के दीये जलाये जाते हैं लेकिन अब लोग घर में धातु के दीये भी जलाने लगे हैं। दीपक जलाने के पीछे बुजुर्ग तर्क देते हैं कि इससे घर का अंधकार दूर होता है। लेकिन इनके फायदों के बारे में विज्ञान में भी पुष्टि की गई है। दीपक के ज्योत का धुंआ घर के लिए एयर प्यूरीफायर का काम करता है बशर्ते आपने दीपक घी या तेल (सरसों) का जलाया हो। घी और तेल की सुगंध घर की हवा में मौजूद हानिकारक कणों को बाहर निकालती है। साथ ही दीपक की तरंगें घर में मौजूद उदसीनता को दूर करने में मदद करती है। माना जाता है कि तेल के दीपक का असर दीपक के बुझने के आधे घंटे बाद तक वातावरण में रहता है। वहीं घी का दीपक, बुझने के बाद करीब चार घंटे तक आसपास के वातावरण को सत्विक बनाए रखता है। इससे अस्थमा के मरीजों को भी काफी फायदा पहुँचता है। दीपक घर से बीमारियों को भी दूर करने में मददगार होता है। खासकर जब आप दीपक के साथ जब एक लौंग जलाते हैं तो इसका दोगुना असर होता है। घी में चर्मरोग दूर करने के सारे गुण होते हैं। इस कारण माना जाता है कि घी का दीपक जलाने से घर के रोग दूर भागते हैं। इसके जरिये प्रदूषण दूर होता है घी का दीपक जलाने से पूरे घर को फायदा होता है। चाहे उस घर का कोई व्यक्ति पूजा में शामिल हुआ हो या ना हुआ हो। दरअसल जब दीपक में उपस्थित घी अग्नि के संपर्क में आता है तो वातावरण को पवित्र बना देता है।

मुम्बई कौसा एसोसियेशन और F.D.A. विवाद का पटाक्षेप

मुम्बई (ठाणे) से प्राप्त जानकारी के अनुसार मुम्बई कौसा कैमिस्ट एसोसियेशन और F.D.A. विवाद सुलझ गया है और एसोसियेशन ने अनिश्चितकालीन हड़ताल का फैसला वापस ले लिया है. ज्ञात रहे कि मुम्बई कौसा में 170 कैमिस्ट शांप हैं. पिछले 15 दिन से चल रहे इस विवाद में F.D.A. ने मुम्बई कौसा के 8 कैमिस्टों पर Dust, Inspection Book, Purchase Bill आदि को बरकरार न रख पाने का आरोप लगाते हुये 8 कैमिस्टों को निलम्बित करने का नोटिस जारी किया जिसका एसोसियेशन के अध्यक्ष श्री शमी शेख मो- 09029160920 ने पुरजोर विरोध किया. इस प्रकरण में श्री शमी शेख ने अपना पक्ष F.D.A. अधिकारियों के समक्ष रखा. इस प्रकरण में AIOCD अध्यक्ष श्री जगन्नाथ शिन्दे (अप्या साहेब) को दखल देना पड़ा. क्योंकि ये 170 कैमिस्टों के जीवन यापन और उपभोक्ताओं को होने वाली हानि का सवाल था. अतः अप्या साहेब के मार्ग निर्देशन में ठाणे कैमिस्ट एसोसियेशन के पूर्व अध्यक्ष श्री चन्दू भाई शाह और श्री शमी शेख और F.D.A. अधिकारियों की बैठक के बाद मुम्बई एसोसियेशन ने अपनी हड़ताल का फैसला वापस ले लिया, इस प्रकरण के पटाक्षेप के लिये श्री चन्दू भाई शाह, श्री शमी शेख व F.D.A. के पदाधिकारियों को हार्दिक बधाई.

I don't know the key to success, but the key to failure is trying to please everybody.
 —Bill Cosby

डेंगू बुखार का काल है मेथी के पत्ते रातों-रात बढ़ाते हैं प्लेटलेट्स

आजकल के मौसम में डेंगू, मलेरिया, चिकनगुनिया और टाइफाइड जैसी बीमारियाँ बहुत ही आम हो गई हैं। बच्चे से लेकर बूढ़े तक हर कोई इन बीमारियों की चपेट में आ रहा है। डेंगू एक ऐसी जानलेवा बीमारी है जिसकी चपेट में आने पर व्यक्ति की मौत भी हो सकती है। यह रोग मच्छर के काटने से होता है। डेंगू के बारे में सबसे खास बात यह है कि इसके मच्छर दिन के समय काटते हैं तथा यह मच्छर साफ पानी में पनपते हैं। डेंगू के दौरान रोगी के जोड़ों और सिर में तेज दर्द होता है और बड़ों के मुकाबले यह बच्चों में ज्यादा तेजी से फैलता है। डेंगू बुखार में प्लेटलेट्स का स्तर बहुत तेजी से नीचे गिरने के कारण यदि इसका इलाज तुरंत न किया जाए तो यह जानलेवा भी हो सकता है। डेंगू के इलाज में अगर आप अंग्रेजी दवाओं से कुछ खास असर नहीं दिख रहा है तो आप साथ-साथ घरेलू नुस्खे भी अपना सकते हैं। हम आपको कुछ ऐसे घरेलू नुस्खे बता रहे हैं जिन्हें अपनाकर आप डेंगू से छुटकारा पाने के साथ ही कुछ दिनों में रोगी को प्लेटलेट्स भी बढ़ा सकते हैं। **मेथी के पत्ते**:- डेंगू से बचाव के लिए मेथी के पत्ते बहुत फायदेमंद होते हैं। ये बुखार को ठीक करने में मददगार होते हैं। मेथी से शरीर के विषाक्त पदार्थ बाहर निकल जाते हैं जिससे डेंगू के वायरस भी खत्म होते हैं। मेथी के पत्ते पौडित का दर्द दूर कर उसे आसानी से नींद में भी मदद करते हैं। इसकी पत्तियों को पानी में भिगोकर उसके पानी को पीने से प्लेटलेट्स भी बहुत जल्दी बढ़ती हैं। इसके अलावा मेथी के पत्तों को पानी में उबालकर हर्बल चाय के रूप में इसका प्रयोग किया जा सकता है। **प्लेटलेट बढ़ाने के लिए गिलोय**:- गिलोय की बेल का सत्व मरीज को दिन में 2-3 बार दें, या गिलोय के 7-8 पत्तों को लेकर कुचल लें उसमें 4-5 तुलसी की पत्तियाँ लेकर एक गिलास पानी में मिलाकर उबालकर काढ़ा बना लीजिए और इसमें पीपती के 3-4 पत्तों का रस मिलाकर ले दिन में तीन चार लेने से रोगी को प्लेटलेट की मात्रा में तेजी से इजाफा होता है। प्लेटलेट बढ़ाने का इस से बढ़िया कोई इलाज नहीं है। यदि गिलोय की बेल आपको ना मिले तो किसी आयुर्वेदिक स्टोर से आप गिलोय घनवटी लेकर एक-एक गोली रोगी को दिन में 3 बार दे सकते हैं। **प्रभावशाली दवा है बकरी का दूध**:- बकरी का दूध बहुत से लोगों को भले ही पसंद न हो लेकिन इसके फायदे बहुत हैं। डेंगू बुखार के लिए बकरी का दूध एक और बहुत ही प्रभावशाली दवा है। बकरी के दूध में गिरते हुए प्लेटलेट्स को तुरंत बढ़ाने की क्षमता होती है। डेंगू के उपचार के लिए रोगी को बकरी का कच्चा दूध थोड़ा-थोड़ा करके पिलाएँ, इससे प्लेटलेट्स बढ़ने के साथ-साथ जोड़ों के दर्द में भी आराम मिलेगा।

Pros and Cons of Having Butter that You Should be Aware of

Benefits of butter -Butter has fat that helps the body absorb many of the healthy nutrients found in vegetables. It especially helps in the absorption of carotenoids, effective disease-fighting antioxidants present in vegetables. It contains lauric acid, which helps to treat fungal infections and candida. Presence of lecithin in butter helps to enhance cholesterol metabolism. Butter eases absorption of essential vitamins (A, D, E and K). Vitamin D present in butter helps in absorption of calcium, which shields teeth against decay. Contains arachidonic acid, which is vital for brain functioning. It fulfills the basic fat requirement of the body, which is 30 percent of the total calorie intake. What to avoid A single spoon of butter has 30 milligrams of cholesterol and 7 grams of saturated fat. The daily intake of saturated fat, however, should be no more than 15 grams. Keep a count of calories when you have butter delicacies. Neither saturated fat nor cholesterol is good for heart health. Therefore, butter with high saturated fat should be avoided when preparing food items. Advice for butter consumption Health experts advise limiting the intake of butter-whipped recipes as far as possible. Butter with half the amount of saturated fat and cholesterol must be used for food preparation instead of regular butter. Butter blended with canola oil or olive oil is healthier than a regular butter. Rather than whipped butter or butter-oil spreads, use butter for baking. Make sure you use high-quality organic raw butter. Low trans-fat margarine - An alternative to butter Margarine, prepared by adding hydrogen to vegetable oil, can be an alternative to butter. It has 35% less fat and can be prepared to match zero-cholesterol standard. Owing to low saturated fat and zero trans fat, individuals can rely on low trans-fat margarine to save health trouble. As far as whole foods are concerned, butter edges past margarine and is also a less arbitrarily prepared food with a nutritional standpoint. Being natural and organic, butter is a healthier choice in a comparison with margarine.

Laxi-gol Natural Syrup

M/S Ayurmed Life Care, Ph:- 01795-244446, Email:- puremedbiotech@gmail.com ने पेट साफ करने के लिए एक हर्बल सीरप लक्सीगोल नेचुरल प्रस्तुत की है. कहावत है कि सुबह फ्रेश तो सारा दिन फ्रेश. कब्ज जीना हराम कर देती है. पेट ही सारी बीमारियों की जड़ है. पेट साफ होने से बहुत सी बीमारियों से बचा जा सकता है. लक्सीगोल नेचुरल सीरप पूर्णतः सुरक्षित है. इसके प्रयोग से इसकी आदत नहीं पड़ती है. इसके अतिरिक्त यह शुगर फ्री है. इसलिए इसे मधुमेह के रोगी भी बेफिक्र होकर ले सकते हैं. लक्सीगोल नेचुरल सीरप कब्ज को रोकती है तथा शरीर की पाचन क्रिया को ठीक करती है. बाजार में लक्सीगोल नेचुरल सीरप 200 ml की मात्रा में उपलब्ध है जिसका मूल्य रू. 125 है. **सम्पर्क सूत्र :- डॉ. प्रशांत मोहन मो. 09882011313, 09736701313.**

Sanofi Explores Combination Treatments for Multiple Myeloma in New Late-Stage Trials

Sanofi has launched two new late-stage clinical studies to determine if an investigational biologic called isatuximab, when used in combination with other commonly used cancer treatments, might be an effective treatment option for certain people with multiple myeloma, a rare blood cancer related to lymphoma and leukemia. Isatuximab is an investigational anti-CD38 monoclonal antibody being studied for the treatment of patients with relapsed and previously untreated multiple myeloma. "The start of two new Phase 3 trials will provide further clinical data as we continue to advance the development of isatuximab," said Joanne Lager, M.D. Head of Oncology Development, Sanofi. "Our multi-study program across major multiple myeloma segments aims to demonstrate the value of isatuximab in combination with emerging standard treatment regimens. We are committed to developing a potential new treatment option

for a continuum of patients with multiple myeloma, a population with high unmet need." Late-stage studies include approximately 750 patients with multiple myeloma IKEMA study is a 325-patient randomized, open-label, global multicenter Phase 3 trial that will compare isatuximab in combination with carfilzomib and dexamethasone against carfilzomib and dexamethasone in patients with relapsed and refractory multiple myeloma that have previously been treated with one-to-three lines of therapy. IMROZ study is a 425-patient randomized, open-label, global multicenter Phase 3 trial that will compare isatuximab in combination with bortezomib, lenalidomide and dexamethasone against bortezomib, lenalidomide and dexamethasone in newly diagnosed multiple myeloma patients not eligible for transplant. Both studies will evaluate progression-free survival as the primary endpoint. Key secondary endpoints include overall survival, overall response rate, depth of response, safety and quality of life. Isatuximab granted orphan designation. Isatuximab has been granted orphan designation in the U.S. and European Union. In December 2016, Sanofi started an additional Phase 3 study (ICARIA), comparing isatuximab in combination with pomalidomide and dexamethasone against pomalidomide and dexamethasone in patients with relapsed and refractory multiple myeloma. The development program for isatuximab will now total three Phase 3 studies. Findings from additional ongoing studies of isatuximab will be presented during poster sessions at this year's American Society of Hematology meeting, December 8-12, in Atlanta, GA.

तमाशबीनों की भीड़

सड़क पर हादसे होते ही रहते हैं. लोग घायल हो जाते हैं. कई लोगों की जान भी चली जाती है. इसे देखने भीड़ भी जमा है, पर मदद को शायद ही कोई आगे बढ़ता हो. इंसानी सोच केवल देखने के लिए होती है. यह दुखदायी है. लोगों को केवल देखना नहीं, मदद भी करनी चाहिए.

11 Potent Home Cures to Relieve Arthritis Pain

In India alone 15 percent people (over 180 million) are estimated to be suffering from the crippling disease- arthritis. Osteoarthritis, rheumatoid arthritis (RA) and psoriatic arthritis are the most common forms of it. With its strong grip, only a few of us will make it to a ripe old age without joining the fold of arthritis. If you are suffering from any form of this disease, read on. While there is no cure for arthritis, a few home remedies can help ease the discomfort. In order to relieve arthritis pain and take more control over your life, follow this advice: Be on the move-Your joints need to be moved as much as you can. This movement will help your joints to function for a longer period of time, along with brightening your outlook on life. Walking, gardening, and house-cleaning are simple activities to assist your joint Exercise regularly:-Various exercises, which are simple and should be done by all arthritis sufferers daily are called range-of-motion exercises. They help patients become flexible, and maintain healthy movement. These exercises also reduce the risk of joint injury, along with providing warm-up for vigorous exercising regime. Aerobic exercises such as walking, playing tennis, and swimming are examples of range-of-motion exercises. They move large muscles of your body to raise the heart rate and increase breathing. Surplus advantages that these aerobic exercises offer endurance, improving heart rate, lung health, and pro-at least 30 minutes every day to strengthen weak bones. done twice or thrice a week to strengthen the muscles es, in which you create resistance by tightening a muscle people with arthritis. Some isotonic exercises in which also helpful. Leg lifts and arm curls using light weights are regime-If you are finding it difficult to do these simple rescue. The buoyancy of water will help reduce the strain cles become more bendable. In case, you are pregnant, in tubs, or have other chronic health problems, you should scarf not just around your neck, but around the elbow, and elbow caps from your nearest store. Be careful not to tightness of stretch gloves will help reduce the swelling the joints. Buy electric gloves. Battery-operated mitts are ings in the woods. They can be also be used by people Goose down-Goose down blankets help warm up the joints and ease pain. For those who are allergic to down, an electric blanket may bring some relief. Lose some weight-Being overweight puts more stress on the joints. A 10-pound of weight gain equals to an increased stress of 40 pounds on your knees. So, shed those extra kilos to improve joint function. Plan your day in advance-Prepare a realistic schedule in advance about your activities for the next day, so that you can know and carry out the most demanding tasks according to your energy level. For instance, you feel your best in the morning and that is when you can do tiresome tasks. Divide the strain- Arthritis patients need to avoid activities that involve a tight grip or that put too much pressure on your fingers. To take this force off, make use of your palms or hands- like use both hands to lift and hold cups, plates, pots, and pans, rather than gripping them with your fingers or with only one hand. You can grasp your goods in the crook of your arm, the way a football player holds the ball as he's running across the field, and you won't be tackled by as much pain. Push open a heavy door with the side of your arm rather than with your hand and outstretched arm. Unlock the joints-Holding one position for a long time can lock the joints in the same place and will add to the stiffness and discomfort. Relax and stretch your joints as often as possible. If you are suffering from arthritis don't be afraid to ask your family members or friends for assistance when you need it. By sharing the load, you'll have more time and energy for the people and activities you enjoy.

Multigrain Foods Can Help You Beat Diabetes, Cancer and Many Other Diseases!

Thanks to the latest craze of multigrain, everybody wants to buy them to become fit and healthier. The biggest grain of truth lies in the fact that combination of grains helps in accelerating the amino acids content of what you eat, thus, helping you dial up the nutritive value of complementary proteins. Amrita Parab, Nutritionist at Digestive Health Institute by Dr. Muffi suggests why grains should be mixed together and which of the grains work best when mixed. In all aspects, whole grains supersede their refined counterpart. If we were to analyse the basic nutritional aspects then the fibre content of the whole grains gives good satiety value, slows the rise in blood sugar levels post consumption, improves the gut health. The health benefits of whole grains are attributed in part to their unique phytochemical composition. This may partly explain the use of grain consumption in the prevention of colon cancer, other digestive cancers, breast cancer, and prostate cancer, which is supported by epidemiological studies. The antioxidant content of whole grains explains the studies indicating an association between whole grain intake and lower CVD. Read here Wheat chapatis or bajra roti, oats or ragi, quinoa or brown rice? — what's better for weight loss Importance of mixing together grains and flours for optimum health: The concept of multigrain has caught the attention of diet watchers. Multigrain provides a compact dose of the essential nutrients. Mixing of cereals and grains improves the quality of protein and apes the protein quality of non-vegetarian sources. Mixing of cereal and pulses lowers the glycaemic index (the capacity of food to increase the blood sugar level after consumption). Read here how to know if your atta or wheat flour is pure At-home method of mixing grains together: We can start by mixing any cereal and any pulse for

a usual preparation. For roti start by experimenting with different cereal combinations: Jowar + whole green mung Bajra + Black urad Ragi + Chickpea flour Wheat + Soya flour Cereals are deficient in one of the essential amino acids (lysine). While pulses are deficient in one (methionine). So, when combined together they make a complete protein. So, our ancestors were correct when they made kichadi an important part of our diet. Idlis, dosa are a perfect example of this. Type of flours can be mixed together: Amaranth: Also called as rajgeera, it is one of the few multi-purpose crop, which can supply grains and tasty leafy vegetables of high nutritional quality. The proteins have high digestibility (approx. 90 %) and are rich with lysine (4.9 to 6.1 g 100 g protein-1), which usually appears in grains as a limiting amino acid. It is gluten free, hence a healthy option in case of gluten intolerance, gluten sensitivity celiac sprue etc. It is a favourite cereal food group for the paediatric population. Read here health benefits of amaranth seeds or rajgira Barley: Barley is also known as jau. The highlight of this cereal lies in its beautiful fibre quality. This can be used in combination with other cereals to lower the glycaemic index. It is an excellent cereal in case of diabetes, cardiovascular disease/ dyslipidaemia, obesity etc Jowar or Bajra: These millets have been underestimated cereal have multiple reasons to be included in our daily diet. They are gluten-free and non-GMO. A great source of fiber, they are antioxidants and can be slowly digested, hence balancing the blood sugar in the body. It also helps in fight inflammation, cancer and heart diseases.
