100/200/300 mgDr. Reddy's and UCB India Enter into An Agreement to co-promote
And Distribute Briviact® For The Treatment of Epilepsy in IndiaHyderabad:- Dr. Reddy's Laboratories Limited Mob:- 09305730890 (BSE:500124,
NSE:DRREDDY, NYSE:RDY) and UCB, a biopharmaceutical company, announced today that
they have entered into a distribution and co-promotion agreement for Briviact®, a brand of
brivaracetam. The agreement grants Dr. Reddy's the exclusive right to distribute Briviact® in
India. Briviact® (brivaracetam) is approved as an adjunctive therapy for the treatment of partial-onset seizures in
epilepsy patients who are 16 years of age and older. M. V. Ramana, CEO - Branded Markets (India and Emerging
Markets), Dr. Reddy's said, "In our endeavor to make innovative medicines accessible to patients in India, we are
excited to partner with UCB India for Briviact®, a novel treatment for epilepsy that will make a difference to the lives
of patients living with epilepsy." "We know that as many as one third of people with epilepsy are currently uncon-
trolled on their existing medicines." Explained Max Bricchi, Head of International Markets, UCB Neurology Patient
Value Unit. "This partnership is another important step towards us providing value together to patients by making
Briviact® available as an additional treatment choice for epilepsy." Epilepsy is the second most common neurological
condition and as per a recent study*, an estimate of 70 million people suffer from it worldwide. There are over
12 million people suffering from epilepsy in India, which contributes to nearly one-sixth of the global burden.

Biocon's Sterile Drug Product Facility Receives EU GMP Certification

Bengaluru:- "Biocon has received the EU GMP certification for its Sterile Drug Product manufacturing facility in
Bangalore, which was inspected by the European agencies in March 2018. This facility is used for the manufac-
ture of Biocon's portfolio of biosimilars. Biocon remains committed to global standards of quality and compliance."

Sun Pharma signs Akshay Kumar as Revital H Brand Ambassador

Mumbai:- Sun Pharma Mob:- 09871291741, 09958124414 Consumer Healthcare, a division of Sun Pharmaceutical Industries Ltd (Reuters: SUN.BO, Bloomberg: SUNP IN, NSE: SUNPHARMA, BSE: 524715, "Sun Pharma" or the "Company" including its Indian subsidiaries) today announced that it has signed Bollywood star Akshay Kumar as the new brand ambassador of Revital H. Akshay Kumar, a renowned actor, martial artist & stuntman known for his high energy was a natural fit for Revital H – a brand that helps keep your energy & stamina high throughout the day. A 3600 marketing campaign featuring Akshay Kumar goes live today. Revital H is India's leading and most trusted health supplement for over two decades. It has a unique combination of 10 vitamins, 9 minerals and ginseng that helps increase stamina, boost energy levels and fight chronic tiredness. Consumer research by Kantar IMRB showed that our ever demanding lifestyle requires energy levels to be fully charged throughout the day. The energy levels, however, tend to go down as the day progresses. Hence the idea of "Ab sabki battery rahegi full" which brings out that no matter how physically challenging the task one does, Revital H helps keep your stamina & energy high. The new campaign featuring Akshay Kumar highlights this core idea. Akshay and Revital H complement each other as both characterize high energy. Commenting on the development, Kal Sundaram, CEO – India, Emerging Markets & Consumer Healthcare said, "In Akshay Kumar, we have found a perfect ambassador who is not only physically fit but also exudes great energy at all times – attributes that define Revital H at its core. Many people have found a holistic good health partner in Revital H as it provides that extra energy & stamina required throughout the day." Through the years the brand has focused its efforts on building its equity in the energy domain and the new campaign aims to strengthen this positioning further. The campaign includes TV, print, social, out-of-home and on-ground consumer initiatives. The Vitamins and Dietary Supplements Category in India is estimated at Rs. 9362 crores growing at 11.5% (Euromonitor International MAT Dec 17). Madhu Noorani, Creative President, Lowe Lintas, says, "Akshay Kumar is one of the fittest, most high energy actors, known for his high energy and action stunts, and that led us to the campaign idea of "Sabki battery rahegi full." It is a simple on-the-street expression that says it all... everything needs a recharge or a top up to keep going... it's simple for consumers to understand and relate to. The TVC literally wrote itself. A simple and engaging film where we see Akshay Kumar the actor full of energy, doing what he does best – a high energy high action stunt sequence - shown in an actual working atmosphere with his other fellow actors and crew struggling to cope up with his energy level."

Dr. Reddy's announces the launch of Repatha™ in India

Hyderabad:- Dr. Reddy's Laboratories Ltd Mob:- 09305730890 (BSE: 500124, NSE: DRREDDY, NYSE: RDY) announced today that it has launched Repatha™ (evolocumab) 140 mg/ml, the first and only PCSK9 Inhibitor* available in India, approved by the Drug Controller General India (DCGI). Repatha™ (evolocumab) is a patented product of Amgen global, indicated for the treatment of adult patients with primary hypercholesterolemia (heterozygous familial and non-familial) or mixed dyslipidaemia. It is used as an adjunct to diet in combination with a statin or statin with other lipid lowering therapies in patients who are unable to reach LDL-C goals with the maximum tolerated dose of a statin. It is used either alone or in combination with other lipid-lowering therapies in patients who are statin-intolerant, or for whom a statin is contraindicated. Repatha™ is also indicated in adults and adolescents aged 12 years and over with homozygous familial hypercholesterolemia in combination with other lipid-lowering therapies. M.V. Ramana, CEO, Branded Markets (India and Emerging Markets) said, "The launch of Repatha™ is another significant addition to Dr. Reddy's Cardiovascular portfolio, which we believe will provide a unique treatment option to patients in India who are at risk of Heart Attack, Stroke and Coronary problems." In India, Repatha™ is distributed by Dr. Reddy's and manufactured by Amgen. *PCSK9 Inhibitors are a new class of lipid lowering drugs. They target and inactivate a specific protein in the liver called proprotein convertase subtilisin kexin 9. This leads to dramatic reduction in the amount of harmful LDL cholesterol circulating in the bloodstream.

New Vaccine Candidates For Malaria

Researchers have shown that higher levels of Plasmodium falciparum antibodies are protective against severe malaria in children living in Papua New Guinea. Children who have higher levels of antibodies to a specific short amino acid sequence in the malaria parasite, P. falciparum, have much lower rates of clinical and severe malaria. This amino acid sequence, an antigen, is similar among P. falciparum strains elsewhere in the world, suggesting that this antigen would make a good target for a malaria vaccine. This work shows that people who lack immunity to the malaria parasite are more likely to experience malaria symptoms. These people could be identified by their relative lack of antibodies to this antigen, said corresponding author Alyssa Barry, BSc (Hons), PhD, Associate Professor, and a group leader within the Population Health and Immunity Division, Walter and Eliza Hall Institute of Medical Research, Melbourne, Australia. That amino acid sequence, known among scientists as the ICAM1 binding motif, is critical to the virulence of the malaria parasite because it can bind to the tiniest blood vessels in the brain, known as the microvasculature. There the parasite remains hidden from the host's immune system, causing a severe case of cerebral malaria by blocking the blood vessels and causing inflammation. The ICAM1-binding motif can vary slightly in sequence and still bind tightly, and it is a strong candidate for a vaccine target. (image: P. falciparum gametocytes) In the study, the investigators measured antibody responses to the ICAM1-binding motif. The subjects of this study were 187 children ages 1-3, from Papua New Guinea. Once the measurements were taken, the investigators followed the children for 16 months to determine the incidence of malaria over time. Antibody responses to the ICAM1-binding motif were associated with 37 percent less risk of high-density clinical malaria during follow-up. (A high density of the parasite in an infection is necessary, but not sufficient to cause a severe case of malaria.) Children who had severe cases of malaria during follow-up showed significantly lower levels of antibody to those sequences. Globally, more than 200 million cases of malaria occur annually, and the disease kills an estimated 400,000 annually, according to the report. Children are hardest hit.

How Red Onions Help in Curing Asthma

Onions commonly known as "pyaz" in Indian households not only have distinct aroma but also have several health benefits to offer. We all know onions are loaded with many chemicals that help you keep many diseases at bay. But did you know this pungent smelling food can help in curing asthma too? There are two varieties of onions- white and red. The red onions are considered one of the best cures for asthma as they are packed with antioxidants and anti-inflammatory properties. In addition, they also contain vitamin C, sulphur compounds, anti-bacterial and anti viral properties. Even studies have shown that red onions have several compounds such as thiosulphonate, quercetin and anthocyanin cyanidin in form of flavonoids and antioxidants, which make red onions one of the best cures for asthma and allergies. **Here is how you can use onions to cure asthma:-** • ½ kg of red onion • Take 6-8 tablespoons of honey • Take about 300-350 grams of dark brown sugar • Take 2 fresh lemons • 5-6 glasses of water **How to Prepare it:-** • First, heat the sugar in some utensil until it starts melting down • Add chopped red onions to it and keep stirring it • Now add water to the mixture • Boil it until the water is reduced to one-third quantity • Allow the solution to cool down and squeeze lemon juice in it and add honey • Keep this mixture in a glass jar **How to Consume:-** Adults should take a tablespoon of this mixture while children should take only a teaspoon before each meal until the time you have the symptoms.

How Does Asthma Affect the Body

An incidence of asthma attack leads to the inflammation of airways, bronchial restriction and irregular airway blockage. When an asthmatic trigger attacks the body, the body responds to it by causing airway inflammation resulting in swelling, bronchial restriction and mucus secretion. Bronchial restriction occurs when your airway muscles contract and tighten around your bronchial tubes. Mucus or fluid that is secreted by airway inflammation further blocks the airway and makes it increasingly difficult for a person to breathe effectively. Asthma in children limits their physical activities. Heavy sports and running become severely difficult and are not allowed. With changing seasons, severity of asthma also changes; this becomes a greater challenge for asthmatic kids and their parents. Parents of an asthmatic child should not pressure him/her to perform activities that he/she finds difficult. Allow the child to decide how much activity he/she feels comfortable with. Even daily activities of an asthmatic kid get restricted; he/she finds difficulty in playing games that involve physical labour. A little physical labour will make the child tired and his/her lungs may not get enough air to breathe properly causing an asthma attack. Inhaled corticosteroids used in the treatment of asthma can result in slow physical growth and development of a child. **Seniors:** In old age, asthma causes severe complications. A person, who is young or middle-aged, will only experience coughing or wheezing during an asthma attack, which becomes severe such as take the form of breathlessness as he or she gets older. As a person gets older, asthma further weakens the body's immunity and he/she may become susceptible to viral infection, anxiety and depression. Chronic asthma attack can also cause bronchitis and other chronic respiratory problems. Older people, who are at greater risk of asthma attacks, are those with heart diseases. **In Pregnancy:-** Pregnant women, who have asthma, need to be very careful. With the occurrence of an asthma attack, the chances of maternal complications greatly increase. Some consequences of an asthma attack in pregnant women can be vaginal haemorrhage, preeclampsia, premature labour, stillbirth and eclampsia. During an asthma attack, the bronchial tubes in the lungs constrict and exert a lot of pressure on the airways resulting in increased breathing rate. Asthma attack during pregnancy can cause production of blood acid, which may impair oxygen supply to the mother as well as the foetus.

Lupin announces tie-up with European Association of Urology

Mumbai:- Pharma major Lupin and the European Association of Urology (EAU) today announced a collaboration to further the cause of Urology in India. With this collaboration, Lupin brings European Association of Urology's biggest event and experts to India for the very first time. The first activity as part of this collaboration will be a medical symposium for the Indian urology community scheduled to be held in July across five cities. By bringing the best of Annual EAU Congress, this program will provide Indian Urology practitioners an opportunity to get accustomed with the latest advancements made at a global level and to apply these global best practices for patients in India. The event to be held under the banner of Masterclass, 'Best of EAU18' is conceptualised as an educational initiative by Lupin's Maxter division comprising medical products related to Urology. This is the first time such a program will be conducted in India, and will see a select group of world-renowned urologists in attendance to discuss clinical practices and key research developments in the field. The speakers' list consists of Prof. Christopher Chapple, a specialist in functional Urology, whose expertise lies in functional, female and reconstructive Urology, including Benign Prostatic Hyperplasia (BPH) and Overactive bladder (OAB) syndromes; Prof. Maurizio Brausi and Prof. Arnulf Stenzl, whose specialities are in Onco-urology; and Prof. Selcuk Silay, an expert in Paediatric Urology, Andrology, and Endourology. For further information or queries, please contact - Pooja Thakran, VP - Corporate Communications, Email: poojathakran@lupin.com, Ph: +91-22-66402531 / 8291013225, Arvind Bothra, Head - Investor Relations, Email: arvindbothra@lupin.com, Ph: +91-22-66402137.

Need Business Development Managers For Appointing District Wise PCD Parties Throughout India

जानिये आँखों के लिए शहद के 8 जबरदस्त नस्खे

ज्याति जाखा का लिए रहें कि उन्हें जरूरत सुख
अगर आपकी आँखों में कोई समस्या है, जैसे- खुजली, दर्द, सूखापन या किसी प्रकार का संक्रमण है तो शहद से मददगार साबित हो सकता है और आपकी समस्या को दूर कर सकता है। पिछले कुछ समय से मोबाइल और लैपटॉप के लगातार इस्टेमाल करने से लोगों की लाइफस्टाइल बहुत ही हैल्डी हो गई है। कई लोगों की आँखों में सबसे ज्यादा समस्या होती है, इसके लिए वो कई तरीके के आईडीपॉप भी इस्टेमाल करते हैं या फिर जैल के इस्टेमाल करते हैं। लिकिन ये कितना सुरक्षित है? ● **आँखों के सूखेपन को दूर भगाने** :-
मददगार:- शहद को गुणग्रन्थी पानी में मिलायें और उसे सोने से पहले अपनी आँखों को अच्छे से धो लें। इससे आँखों की डाइनेस, लालामी और खुजली आदि की समस्या दूर हो जाती है। ● **आँखों में फूलापन होनो:-** अगर आपकी आँखों के नीचे फूलापन हो गया हो, जैसे कि लम्बे समय तक नींद पूरी न हो पाने के कारण होता है, तो आप शहद की कुछ बूंदों को वहाँ पर डालकर मसाज कर लें और 15 मिनट बाद धो लें। ● **कन्जक्टिवाइटिस का उपचार:-** अगर आपकी आँखें आ गई हों तो आप शहद को आँखों पर लगा सकते हैं, इससे आँखों की करकराहट दूर हो जायेगी। ● **आँखों के संक्रमण को दूर भगाने में:-** आँखों के संक्रमण को दूर करने में भी यह बहुत लाभदायक होता है, इसके लिए आप शहद को गुणग्रन्थी पानी में मिला लें और कॉटन बॉल से उसे आँखों के ऊपर लगायें। इससे आँखों का संक्रमण जल्द ही सुख हो जायेगा। ● **आँखों की मांसपेशियों को स्वस्थ बनायें:-** शहद, आँखों की मांसपेशियों को स्वस्थ बनाता है। साथ ही दृष्टि को कमज़ोर होने से बचाता है। ● **ग्लूकोमा होने से बचायें:-** अगर आँखों में शहद की बूंद को ड्राइप की तरह डाला जाये, तो ग्लूकोमा होने से बचा जा सकता है। लिकिन शहद में किसी प्रकार की मिलावट नहीं होनी चाहिए। ● **दृष्टि कमज़ोर होने से बचायें:-** शहद में कई सारे एंटीऑक्सीडेंट गुण होते हैं जो कि आँखों की नर्व को स्वस्थ बनाये रखने में मददगार साबित हो सकते हैं। इससे निगाह में कमी नहीं आयेगी और आँखों पर लम्बे समय तक चश्मा लगाने की आवश्यकता भी नहीं पड़ेगी। ● **आँखों में खुजली होने पर राहत:-** शहद को आँख पर लगाने से खुजली में आराम मिलता है। साथ ही आँखों के नीचे वाले रिंकल्स भी सही हो जाते हैं।

कहीं दिल भी पिघलता है? हाँ

बेटा अपने बूढ़ा वाप को अनाथ आश्रम में छोड़कर वापस घर जा रहा था। उसकी बीवी ने फौन किया और कहा अपने बाप से यह भी कह देना कि त्याहार पर भी अने की अवश्यकता नहीं है। अब वहाँ रहें और हमें भी शान्ति से रहने दें। बेटा वापस मुड़ा। अनाथ आश्रम गया तो देखा उसका बाप आश्रम के मैनेजर के साथ खुशी-खुशी गप्पे मार रहा है और वह वापस ऐसे बैठा है जैसे वे एक दूसरे को जानते हैं। बेटे ने मैनेजर से पूछा सर आप मैंने पिता को कब से जानते हैं। उसने मस्करात हुए जवाब दिया तब से जब ये अनाथालय में आपको गोद लेने के लिए आये थे।

आँखसीटोसित रहीं बनायेंगी जिजी कम्पनियाँ

ड्रग कंट्रोलर ऑफ इंडिया ने एक सख्त कदम उठाते हुए देशभर की निजी फार्मा कंपनियों पर संबंधित इंजेक्शन के निर्माण पर रोक लगा दी है। ड्रग कंट्रोलर ऑफ इंडिया के निर्देश पर यूपी के अफसरों ने भी आदेश जारी कर दिया है। एक जुलाई से मैडीकल स्टोरों पर भी बिक्री बंद हो जाएगी। देश में करीब 125 निजी फार्मा कंपनियों ने ऑक्सीटोसिन इंजेक्शन का निर्माण करती हैं। वहाँ यूपी में 6 कंपनियों ने ऑक्सीटोसिन बनाने की अनुमति ले रखी है। इसमें कानपुर में दो, गाजियाबाद में दो, मेरठ में दो कंपनियां स्थापित हैं। ड्रग कंट्रोलर यूपी ए.के. जैन के मुताबिक 1 जुलाई से देशभर की सभी निजी फार्मा कंपनियों में ऑक्सीटोसिन निर्माण पूरी तरह प्रतिबंध होगा। इसके लिए ड्रग कंट्रोलर ऑफ इंडिया द्वारा नोटिफिकेशन जारी कर दिया गया है। संबंधित आदेश को यूपी को निजी फार्मा कंपनियों को सर्कुलेट कर दिया गया है। सिर्फ सरकारी में सप्लाई, मैडीकल स्टोरों पर बिक्री बंद होगी।— ऑक्सीटोसिन का निर्माण सार्वजनिक क्षेत्र उपक्रम (पीएसयूएस) में होगा। वहाँ निजी कंपनी को ऑक्सीटोसिन के निर्माण संबंधी रॉग मैट्रियल सप्लाई पर भी रोक लगा दी गई है। असिस्टेंट ड्रग कमिशनर लखनऊ मंडल पांचे मोदी ने कहा कि संबंधित कंपनी की ऑक्सीटोसिन सिर्फ सरकारी अस्पतालों में ही आपूर्ति की जाएगी। इसमें पशु अस्पताल भी शामिल हैं। वहाँ भविष्य में जेनरिक स्टोर पर भी इसकी उपलब्धता सुनिश्चित की जा सकती है। प्राइवेट अस्पताल व मैडीकल स्टोर पर एक जुलाई से इनकी बिक्री प्रतिबंधित होगी। सेहत के लिए घातक:- ऑक्सीटोसिन लगाकर पशुओं से निकाला गया दूध सुरक्षित नहीं होता है। इसके सेवन से मानव सेहत पर गहरा दुष्प्रभाव पड़ रहा है। विशजितों के मुताबिक ऑक्सीटोसिन से निकाले गए दूध का अधिक सेवन करने से बच्चियों का कम उम्र में व्य्रस्क होने जैसा शरीरी विकास, बच्चों में दृष्टि का कमज़ोर होना व महिलाओं में स्तन कैंसर के खिलाफ बढ़ जाते हैं। इसके अलावा कई समस्याएं हो जाती हैं। फैसले के अहम कारण:- केंद्रीय मंत्री व पशु अधिकारों के लिए सक्रिय भेनका गँधी ने याचिका दायर कर ऑक्सीटोसिन के दुरुपयोग का मामला उठाया था। ● इसके बाद सर्वे कराया गया, जिसमें पश्या गया कि डेयरी संचालक व किसानों द्वारा पशुओं से दूध निकालने व सब्जी का आकार बढ़ाने श्रेणी में शामिल होने के बावजूद इंजेक्शन का अंधाधुंध निर्माण पर रोक लगा दी गयी है। ● मार्च 2016 में हिमाचल प्रदेश उच्च न्यायालय ने केंद्र सरकार को ऑक्सीटोसिन का निर्माण सार्वजनिक क्षेत्र की कंपनियों तक ही सीमित रखने का निर्देश दिया। वहाँ जिन कंपनियों ने लाइसेंस प्राप्त कर दिया, उनमें निर्माण रोकने को कहा। ● अप्रैल 2018 में केंद्र सरकार ने ऑक्सीटोसिन का निजी कंपनियों में निर्माण प्रतिबंध करने का फैसला लिया। ● ड्रग कंट्रोलर ने जून में आदेश जारी कर एक जल्दी से निजी कंपनियों पर ऑक्सीटोसिन के निर्माण पर रोक लगाने को कहा है।

उपचार

एक व्यक्ति ने अपनी पत्नी को डॉक्टर के पास ले जाकर दिखाया और कहा की उसे बच्चा नहीं हो रहा है। डॉक्टर ने पत्नी का मुआयना करने के बाद कहा, “मैं बच्चे के लिये इसका इलाज नहीं कर सकता क्योंकि यह ज्यादा अरेस तक जीवित नहीं रहेगी मुश्किल से एक महीना और जीएसी।” उस औरत ने सुना और मृत्यु-भय से व्याकुल हो उठी। वह हर समय चिंतित रहने लगी। एक महीना बात गया, पर उसको मृत्यु नहीं हुई। कुछ दिन और बीते, परिष भी वह जीवित रही। आखिर उसका पति डॉक्टर के पास गया। डॉक्टर ने सारी बात सुनकर कहा, “अब इसे बच्चा हो सकेगा।” पति बोला, “वह कैसे?” डॉक्टर ने कहा, “आप की पत्नी बहुत मोटी थी, जिसके कारण बच्चा नहीं हो सकता था। तब मेरे सामने प्रश्न आया कि उसका मोटापा कैसे दूर किया जाय? उसका खाना कम करने के लिए मुझे उसके मन में मृत्यु का धूप घेता करना पड़ा। अब उसका मोटापा दूर हो गया होगा।” पति बोला, “हाँ, अब तो वह काफी पतली हो गई है।” “तो समझिए इलाज हो गया है,” डॉक्टर ने तपाक से कहा, “अब वह माँ बन सकेगी।”

क्रिकेट जान

भारत के पाँच क्रिकेट खिलाड़ियों ने अंतर्राष्ट्रीय क्रिकेट में हैट ट्रिक लिया है। ये हैं, कपिल देव (श्री लंका के विरुद्ध-एशिया कप), हरभजन सिंह (आस्ट्रेलिया के विरुद्ध- टेस्ट मैच), चेतन शर्मा (चूजीलैंड के विरुद्ध- विश्व कप), इरफान पठान (पाकिस्तान के विरुद्ध- टेस्ट मैच), कलदीप यादव (ऑस्ट्रेलिया के विरुद्ध- ओडीआई)। डॉ. नरेन्द्र नाथ लाहा, गवालियर (मण्डप), मो. 9753698240.

July 27-29,2018 Medicall 2018 (Chennai, India.) The 20th edition of India's largest B2B Equipment and Hospital needs exhibition is scheduled to be held at Chennai Trade Centre in Chennai, India. For details contact: Medexpert Business Consultants Pvt Ltd, 7th Floor, 199, Luz Chruch Road, My Iapore, Chennai 600 004, Tamilnadu, India. **Tel.:+91-7305-789-789**, E-mail: info@medicall.in Website: www.medicall.in

August 7-9, 2018 FIME 2018 (Orlando, USA) The Largest show in America on healthcare scheduled to be held at Orange County Convention Center in Orlando, Florida, USA. For details contact: Informa Life sciences Exhibitions (Head Quarter), 5 Howick plac, London SW1P 1WG, United Kingdom. **Tel.:+941-554-3485**. E-mail: fime@informa.com : Website: www.fimeshow.com

August 29-31,2018 Medical Fair Asia 2018 (Marina Bay Sands, Singapore.) The 12th edition of Medical Fair Asia an International Exhibition on Hospital, Diagnostic, Pharmaceutical, Medical & Rehabilitation Equipment and Supplies is scheduled to be held In Marina Bay Sands, Singapore. For details contact: Messe Dusseldorf Asia Pte Ltd, #09-02,3 Harbourfront Pl, Singapore 09925. **Tel.:+65-6332-9682** E-mail: daphne@mda.com.sg Website: www.medicalfair-asia.com

September 4-6,2018 MedExpo Africa 2018 (Nairobi Kenya.) The 21st edition of MedExpo Africa dedicated to medical equipment and services is scheduled to be held at Kenyatta International Convention Centre in Nairobi, Kenya. For details contact: Expogroup, TRY Office Plaza, 5th Floor, Suite 5C, 58 Muthithi Road, Westlands, P.O Box 37994-00100, Nairobi, Kenya. **Mobile:+254-722-886-376 and/or +254-733-886-311**. E-mail: Ashley@expogr.com Web.:www.expogr.com/kenyamed

September 5-7,2018 Cambodia Pharmed 2018 (Phnom Penh, Cambodia.) The 3rd edition of Cambodia International Exhibition and Conference on Cosmetic, Beauty, Hair and Spa shall be held a Koh Pich Center in

Phnom Penh, Cambodia. For details contact: Minh Vi Exhibition and Advertisement Services Co., Ltd (VEAS CO.,LTD), 08th Floor, Room 805, Ha Do Building, 02 Hong Ha St., Ward 02, Tan Binh Dist., Ho Chi Minh City, Vietnam. **Tel.:+84-28-3848-8561**, E-mail: info@veas.com.vn ; Website: www.pharmed-cambodia.com

September 25-27,2018 Medlab Europe 2018 (Barcelona, Spain.) An international event, Medlab Europe, showcasing the latest Laboratory management and diagnostic technologies is scheduled to be held at Fira Barcelona-Gran Via in Barcelona, Spain. For details contact: Informa life Sciences Exhibitions, Office No.:20:01, Level 20, Sheikh Rashid Tower, Dubai, Word Trade Centre, Dubai, U.A.E. **Tel.:+971-4-3365161, +34-518-89-0041** (for Spain). E-mail: medlabeurope@infoma.com Website: www.medlabeurope.com

September MEDIC East Africa 2018 (Nairobi, Kenya.) An international event dedicated to healthcare and medical laboratory industry is scheduled to be held at Visa Oshwal Centre Westlands in Nairobi, Kenya. For details contact: Informa Life Sciences Exhibitions, Office No.:20:01, Level 20, Sheikh Rashid Tower, Dubai, World Trade Centre, Dubai, U.A.E. **Tel.:+971-4-3365161, +254-20-7640755** (For Kenya). E-mail: mea@informa.com Website: www.mediceastafrica.com

October 23-24, 2018 ImmexLS 2018 (Miami, Florida, USA.) The International Medical Marketplace and Expo dedicated to Lifesciences, Pharmaceutical Ingredients and Packaging is scheduled to be held at James L Knight Centre, Miami, Florida, USA. For details contact: Immex, LLC., 1869 Porter Lake Dr. Sarasota, Ft. 3424 USA. **Tel.:+1-941-320-3216**, Email: info@immexls.com and/or ian@immexls.com ; Website: www.immexls.com

December 14-16,2018, Myanmar, Pharmed 2018 (Yangon, Myanmar.) The Internal Trade Fair for Laboratory, Analytical, Biotechnology and Scientific Instruments & Technology in Myanmar is scheduled to be held at Rose Garden Hotel in Yangon, Myanmar. For details contact: Minh Vi Exhibition and Advertisement Services Co. Ltd (VEAS CO.LTD), 08th Floor, Room 805, ha Do Building, 02 Hong Ha St., Ward 02, Tan Binh Dist., Ho Chi Minh City, Vietnam. **Tel.:+84-28-3848-8561**, E-mail: info@veas.com.vn; Website: www.pharmed-myanmar.com.

दवा प्रस्तुत की

Diabetix जो कि Franco-Indian Pharmaceuticals Pvt. Ltd. Ph.: 022-24934026, 24934027, 24934030 की ही एक डिवीजन है, ने GLYPTEN (Teneligliptin Tablets 20mg) दवा को (10x10) के डिब्बे में प्रस्तुत किया है। यह दवा (2 Type Diabetes) में काम आती है। कम्पनी ने (Teneligliptin Tabs 20 mg) के बारे में निम्न जानकारी भेजी है:-
विशेषताएँ- Provides effective and consistent Glycaemic control with a good Tolerability Profile, including no Severe Hypoglycemia and Weight Gain. ● Addition of Teneligliptin Once Daily to Metformin was effective and generally well tolerated in Type 2 Diabetes Patients. ● Improves 24hr Blood Glucose Levels by Increasing Active Incretin Levels and early-phase Insulin Secretion.

अब 68 प्रतिशत लाभांश मिलेगा

अहमदाबाद:- Troika Mob:- 09370046632, 09639542268 ने जानकारी दी है कि उनके उत्पाद Tess (Triamcinolone Acetonide (0.1% w/w) in buccal paste) को बेचने पर कम्पनी 68 प्रतिशत का लाभांश दे रही है। यह दवा Mouth Ulcer इलाज के लिए अच्छी दवा साबित हुई है। साथ ही कम्पनी अपने उत्पादन Fever and Pain XYKAA RAPID 650 (Paracetamol 650 mg. tabs.), XYKAA RAPID 500 (Paracetamol 500 mg. tabs.) 10+2 तथा Pain Relief XYKAA BD (Paracetamol 325 mg. Immediate Release + Paracetamol 675 mg. Extended Release), XYKAA TD (Paracetamol 325 mg. Immediate Release + Paracetamol 325 mg. Extended Release) (10+1) की स्क्रीम भी दे रही है।

Cipla Receives Final Approval for Generic Depo-Testosterone® (Testosterone Cypionate for Injection 100mg/ml and 200mg/ml)

Mumbai:- Cipla Limited ("Cipla"), today announced that it has received final approval for its Abbreviated New Drug Application (ANDA) for Testosterone Cypionate Injection 100mg/ml and 200mg/ml from the United States Food and Drug Administration (US FDA). Cipla's Testosterone Cypionate Injection 100mg/ml and 200mg/ml is AO-rated generic therapeutic equivalent version of Pharmacia and Upjohn's DepoTestosterone®. It is indicated for replacement therapy in males in conditions associated with symptoms of deficiency or absence of endogenous testosterone.

Cipla Receives Final Approval for Generic Isuprel® (Isoproterenol Hydrochloride Injection USP, 0.2mg/mL)

Mumbai:- Cipla Limited ("Cipla"), Mob:- 09760036888, 09911865532, 09829240002 announced that it has received final approval for its Abbreviated New Drug Application (ANDA) for Isoproterenol Hydrochloride Injection USP, 0.2mg/mL, single-use sterile Ampoule from the United States Food and Drug Administration (US FDA).

Cipla's Isoproterenol Hydrochloride Injection USP, 0.2mg/mL, ampoule is AP-rated generic therapeutic equivalent version of Hospira Inc's Isuprel® Injection, 0.2mg/ml and is indicated for the treatment of... "Mild or transient episodes of heart block that do not require electric shock or pacemaker therapy." Serious episodes of heart block and Adams-Stokes attacks (except when caused by ventricular tachycardia or fibrillation)." Use in cardiac arrest until electric shock or pacemaker therapy, the treatments of choice, is available." Bronchospasm occurring during anesthesia." As an adjunct to fluid and electrolyte replacement therapy and the use of other drugs and procedures in the treatment of hypovolemic and septic shock, low cardiac output (hypoperfusion) states, congestive heart failure, and cardiogenic shock. According to IQVIA (IMS Health), Isuprel Injection and its generic equivalents had US sales of approximately \$148M for the 12-month period ending April 2018. Cipla Receives Final Approval for Generic Isuprel® (Isoproterenol Hydrochloride Injection USP, 0.2mg/mL) Mumbai, Cipla Limited ("Cipla"), today announced that it has received final approval for its Abbreviated New Drug Application (ANDA) for Isoproterenol Hydrochloride Injection USP, 0.2mg/mL, single-use sterile Ampoule from the United States Food and Drug Administration (US FDA). Dr. Reddy's Laboratories announces the launch of Levetiracetam in Sodium Chloride Injection in the U.S. Market

Hyderabad:- India and Princeton, NJ, USA. Dr. Reddy's Laboratories Ltd. Mob:- 09305730890 (BSE: 500124, NSE: DRREDDY, NYSE: RDY)

announced today that it has launched Levetiracetam in Sodium Chloride Injection, 500 mg/100 mL (5 mg/mL), 1,000 mg/100 mL (10 mg/mL), and 1,500 mg/100 mL (15 mg/mL) single-dose infusion bags, a therapeutic equivalent generic version of HQ Specialty Pharma Corporation's Levetiracetam in Sodium Chloride Injection, approved by the U.S. Food and Drug Administration (USFDA). The Levetiracetam in Sodium Chloride Injection brand and generic had U.S. sales of approximately \$37 million MAT for the most recent twelve months ending in April 2018 according to IMS Health*. Dr. Reddy's Levetiracetam in Sodium Chloride Injection is available in strengths of 500 mg/100 mL (5 mg/mL), 1,000 mg/100 mL (10 mg/mL), and 1,500 mg/100 mL (15 mg/mL) single-dose infusion bags.

Cancer Immunotherapy 'Could Be Safer' With Natural Killer Cells

Scientists have developed an immunotherapy that uses immune cells cultured from stem cells instead of cells that are taken from patients to seek and destroy cancer cells. The immunotherapy is a type known as chimeric antigen receptor (CAR) therapy. It increases immune cells' cancer-killing power by reprogramming them to express CAR protein, which has been engineered to bind only to cancer cells. **Advantages of natural killer cells:** Typically, CAR immunotherapy uses genetically altered white blood cells known as T cells that are grown from cells taken from patients. This approach is called CAR-T cell immunotherapy and has been the focus of much research and funding lately. But the new approach uses natural killer (NK) cells obtained from human induced pluripotent stem cells (iPSCs) instead of patient-specific T cells. "NK cells," explains senior study author Dan S. Kaufman, a professor

of medicine at the University of California, San Diego, "offer significant advantages as they don't have to be matched to a specific patient." Because, he adds, "one batch of iPSC-derived NK cells can be potentially used to treat thousands of patients," it opens the prospect of "standardized, 'off-the-shelf' treatments" for use with other anticancer drugs.

CAR-T cell obstacles: CAR-T cell immunotherapy has shown great promise but positive results from trials have not always translated to clinical success. While one therapy has been approved in the United States for use in a type of acute lymphoblastic leukemia, it is not clear how soon CAR-T therapies for solid tumors will be available. **Safety concerns:** There have also been increasing concerns about the safety of CAR-T therapy. In fact, Prof. Kaufman notes that there have been some cases of "severe toxicity or adverse effects" that have led to organ failure and death. He and his colleagues have already conducted some research into NK cells that suggested that they do not produce the same adverse side effects. They also found that they produced "few adverse effects" in the mouse models they used in the new study. The researchers tested NK cells obtained from human iPSCs engineered to express CAR in mouse models of ovarian cancer. These mouse models were developed by transplanting human ovarian cancer cells into mice with suppressed immune systems so they did not reject the human cells. The cancer cells then grew into tumors. The team found that the CAR NK cells showed a similar level of anti-tumor activity as CAR-T cells but with "less toxicity." And, they were more effective than NK cells that did not express CAR.

DNA Damage Links to Onset of Skin Cancer, Melanoma Mapped

A critical link in mapping recurrent mutations of melanoma -- the most serious form of skin cancer in humans -- has been discovered by researchers. In a paper published July 6 in *Nature Communications*, researchers established that DNA binding by a specific set of transcription factors, called ETS, is inherently mutagenic in UV-exposed cells. With new genome mapping technology, these findings provide a crucial understanding of mutations that result at ETS binding sites located in specific genes that are known to be drivers in the onset of melanoma in humans. WSU researchers have developed a next-generation sequencing-based technology that allows them to precisely map the locations of UV-induced DNA damage throughout the whole human genome. Using this advanced technology, they generated a high-resolution UV damage map in human cells. By correlating the UV damage map with melanoma mutations, they discovered significantly elevated UV damage levels at ETS binding sites, which massively increased mutation rates at the same sites in sequenced melanoma genomes. "UV-induced DNA damage is the major risk factor for melanoma, and DNA repair is a vital first line of defense against DNA damage to prevent mutations and cancer," stated Steven Roberts, assistant professor, WSU School of Molecular Biosciences, in WSU's College of Veterinary Medicine. "These pivotal results establish a fundamental research tool in cancer research and confirms we are on the correct course to further discovery by mapping UV damage in human cells." Researchers contributing to the paper include Roberts, Peng Mao, Alexander J. Brown, Michael J. Smerdon and John J. Wyrick, all from WSU's School of Molecular Sciences; and Svetlana Lockwood, with the Paul G. Allen School for Global Animal Health; and Shingo Esaki and Gregory M. K. Poon, from Georgia State University's Center for Diagnostics and Therapeutics.

Know the Symptoms of Arthritis

As there are many types of arthritis, there's also a wide range of symptoms. With inflammatory arthritis there's likely to be more swelling in your joints and more variation in the level of pain (which can't be explained simply by the level of physical activity). Other common symptoms include early morning joint stiffness, tiredness, a general feeling of being unwell, weight loss, mild fevers and skin rashes. But remember these symptoms aren't specific to arthritis and can be caused by other illnesses.

Should you See a Doctor?:- It's common to experience aches and pains in your muscles and joints from time to time, particularly if you take part in unusual or strenuous physical activities. So how can you distinguish the early signs of arthritis from 'normal' pain and stiffness? And how do you know when you should see your doctor about your symptoms? If the pain developed after a spell of unusual exercise or activity you may have just overdone it a bit, and the pain should ease within a few days. However, you should seek advice from your doctor if any of the following apply to you: ● The pain isn't linked to an injury or persists for longer than a week ● Your joint has become swollen, and isn't linked to an injury ● You also feel unwell or have a fever ● You're unable to do your everyday tasks due to joint or muscle pain ● Your back hurts after lifting something heavy, and taking painkillers, applying heat and trying to stay active for a day or so hasn't helped ● You experience swelling, stiffness or a painful 'squeeze' in your joints The earlier you get diagnosed the better the outcome, so don't delay seeing your doctor if there's no obvious reason for the pain.
