Micro Labs की धांधली
देश की मशहूर कंपनी **Micro Labs**
Mob:-09759897116, 09005959200, 07417877020, 09350435622 ने भी अब अपने यहाँ दामों की धांधली शुरू कर दी है. कंपनी का Dolo-250 35.91 के M.R.P. पर बाजार में उपलब्ध है वहीं दूसरी ओर Dolo जिसमें Paracetamol केवल 156.25mg है तो यह 43 ₹. M.R.P. पर बिक रही है. यानि 250mg Paracetamol IP दवा सस्ती और 156.25mg Paracetamol IP महँगी बिक रही है.

Glenmark ने किया 1, 2 का 4
देश की नामी गिरामी कंपनी **Glenmark** मो- 09319755551, 09997511411, 07895997755, 09310682828 ने इस बार 1, 2 का 4 का तमाशा कर दिखाया है. कंपनी बिना दवाई बेचे ही गरीब जनता से पैसे वसूल कर रही है. जी हाँ हमारे संवाददाता के पास **Glenmark** की **Ascoril+** व **Ascoril LS+** की ऐसे दो सील पैक शीशियाँ हैं, जिसमें एक बूंद भी दवा नहीं है. क्या कंपनी को ऐसा समझ आता है कि उपभोक्ता बिल्कुल ही अंधा हो गया है कि वो बिना दवा लिये दुकानदार को पूरे पैसे देकर आ जाता है.

Abbott की लापरवाही
देश की बहुत बड़ी व नामी गिरामी कंपनी **Abbott** लापरवाही में लोकल दवा कंपनी को भी मात दे रही है. जी हाँ **Abbott** मो- 09369318541, 09761234041, 09893183539, 08953005824, 09412857136, 09555930220, 07417707779 कंपनी की **Carbimazole Tablets IP- Neo Mecazole 10** की सील बन्द शीशी में दवा के नाम पर फगंस पायी गयी है. अब **Abbott** जैसी नामी गिरामी कंपनी का यह हाल है तो शेष बची लोकल कंपनियों का क्या होगा?

Glenmark Launches a Globally-Renowned Hair Growth Formula Nourkrin® Woman in India

Mumbai:- Glenmark Pharmaceuticals Limited, Mob:- 09999442531, 09319755551 a research-led global integrated pharmaceutical company, today announced the launch of Nourkrin® Woman, a globally renowned, clinically-proven proteoglycan replacement formula, for normalizing hair growth cycle. Nourkrin® Woman will be exclusively marketed in India by Glenmark Pharmaceuticals under a licensing agreement with Denmark-headquartered firm Pharma Medico. Nourkrin® Woman contains Marilex®, a unique and proprietary scientific formula, rich in specific proteoglycans (PG) essential for hair follicle development, which helps in normalizing, supporting and maintaining the Hair Growth Cycle. Nourkrin® Woman is a proven formula, based on more than 56 scientific studies and is recognized by leading regulatory agencies globally. Nourkrin® is the number one product in UK and Europe for hair loss management and is available in more than 40 countries worldwide. Sujesh Vasudevan, President and Head - India, Middle East and Africa, Glenmark said, "Glenmark is proud to launch Nourkrin® Woman in India. Glenmark has been present in the field of Dermatology for over 4 decades bringing globally advanced therapies to Indian patients. The launch of Nourkrin® will enable millions of women in India manage hair loss not by just preventing hair loss but by normalizing the hair growth cycle and tackling the problem at the follicular level." Rajesh Kapur, Senior Vice President - Sales & Marketing, Glenmark said, "It is alarming to note that 60% women experience hair loss at some stage in their lives and in India there are more than 90 million women reported to have hair loss. With male and female hair loss patterns being different, Nourkrin® Woman is the first and exclusive product focusing on female hair loss problem through proteoglycan replacement."

Indoco's Goa Plant III Receives EU GMP Certification

Mumbai:- Indoco Remedies Ltd. Mob:- recently received the European GMP certification from the Regulatory Authority of Hungary for its manufacturing facility for non-sterile products (Goa - Plant III), located at L-32,33, 34, Verna Industrial Estate, Goa. "The EU GMP certification will enable us to continue to export medicinal products to all European countries. The granted GMP certification will also continue to support exports of drug products to Canada, Australia, New Zealand & rest of the emerging territories", said Aditi Kare Panandikar, Managing Director, Indoco Remedies Ltd.

GSK's Nucala Improves Control of Severe Asthma

GlaxoSmithKline Mob:- 09711110134, 09873604249 has presented data showing that its biologic Nucala improved asthma control in patients with severe disease not adequately managed with Novartis' Xolair. The OSMO trial met its primary endpoint of asthma control with clinically significant improvements, as evidenced by the Asthma Control Questionnaire (ACQ-5), as well as a stream of key secondary targets, in patients switching to the drug. According to the data, presented at the American Academy of Allergy, Asthma & Immunology and World Allergy Organisation Joint Congress in Orlando, the rate of exacerbations requiring oral steroids was reduced by 64 percent after patients were switched to Nucala (mepolizumab) compared to the 12 months before starting treatment with the drug, while exacerbations requiring an emergency department visit or hospitalisation dropped 69 percent. There was also an improvement in lung function of 159 mL vs baseline and a reduction in blood eosinophils of around 80 percent by Week 4 (vs baseline), which was sustained until Week 32. Also, in a pooled, post-hoc meta-analysis of data from the MENSA and MUSCA studies presented at the Congress, Nucala showed improvements in lung function of patients with severe eosinophilic asthma compared with placebo. Early improvements were recorded in week one and sustained at the end of the observational period. The results "provide evidence that supports the use of mepolizumab in those eligible patients who are not well controlled by omalizumab," noted Jonathan Sweeting, SVP and head, Global Respiratory Franchise at GSK.

Hetero Launches 'TAFERO-EM' - The First Generic Fixed-Dose Combination of 'Emtricitabine and Tenofovir Alafenamide' in India India,

Hyderabad:- Hetero Mob:- 09456332651, 09368056718, 09219104531, 09321032804, 09312775401 one of India's leading generic pharmaceutical companies and world's largest producer of

anti-retroviral drugs, today announces the launch of the first generic fixed-dose combination (FDC) of 'Emtricitabine (200mg) and Tenofovir Alafenamide (25mg) in India. The product has been approved by Drug Controller General of India (DCGI) and will be marketed and distributed under the brand name 'TAFERO-EM' by Hetero Healthcare Ltd. The FDC drug 'Emtricitabine and Tenofovir Alafenamide' is an anti-retroviral medication which is indicated in combination with other anti-retroviral agents for the treatment of human immunodeficiency virus (HIV-1) infection in adults and pediatric patients 12 years of age and older. The FDC drug 'Emtricitabine and Tenofovir Alafenamide' helps to control HIV infection, decreasing the amount of HIV in the patient's body. This lowers the chances of getting other HIV complications and thereby improves their quality of life. Studies suggests that Emtricitabine and Tenofovir Alafenamide are key anti-retroviral agents which has shown high antiviral efficacy and better safety profile in HIV patients. This combination represents the new generation HIV treatment and is recommended by various international guidelines as a preferred dual-NRTI backbone along with a third agent.

US Green Lights Novel HIV Treatment

US regulators have approved a new option for treating HIV, marking the first therapy with a new mode of action in a decade. Theratechnologies and partner TaiMed Biologics' Trogarzo (ibalizumab-uiyk) has been cleared for use in combination with other antiretroviral (ART) therapies for HIV-1 infection in heavily treatment-experienced adults with multidrug resistant infection who are failing their current ART regimen. Trogarzo is a CD4-directed post-attachment HIV-1 inhibitor that binds to CD4+ receptors on host cells and blocks the HIV virus from infecting the cells. Aside from offering an alternative treatment approach, it is also the only ART that does not require daily dosing, being infused every two weeks instead. Highlighting the need for new therapies despite current options, Theratechnologies noted that up to 25,000 people in the US with HIV are currently multidrug resistant, of which 12,000 are experiencing a rise in viral load to detectable levels, "jeopardizing their health and making HIV transmittable". "In Phase III ibalizumab trials, we saw marked improvements in patients' health who not only were heavily treatment-experienced and had limited remaining treatment options, but in cases they also had extremely high viral loads and significantly impaired immune systems," said Edwin DeJesus, medical director for the Orlando Immunology Center. "As an investigator for ibalizumab clinical trials over nearly 10 years, it was remarkable and inspiring to see the dramatic effect ibalizumab had on such vulnerable patients. As a clinician, I am excited that we will now have another option with a different mechanism of action for our heavily pretreated patients who are struggling to keep their viral load below detection because their HIV is resistant to multiple drugs."

अमर सिंह कॉलेज के छात्र की सड़क हादसे में मौत

औरंगाबाद:- यहाँ निकटवर्ती अमर सिंह कॉलेज का बरेली निवासी छात्र रामगोपाल विद्यालय में बी० एस० सी० का अंतिम वर्ष का छात्र था. वह प्रैक्टिकल देकर वापस बस में बैठने के लिये औरंगाबाद आ रहा था जैसे ही वह अगली खिड़की से बस में चढ़ने लगा गिरकर बस की चपेट में आ गया. जिससे उसकी दर्दनाक मौत हो गयी और उसने तड़पतड़प कर जान दे दी. कॉलेज के छात्रों ने एकत्रित होकर सड़क पर जाम लगा दिया. और प्रशासन से मृतक छात्र के परिजनों को बीस लाख रुपये की आर्थिक मदद दिये जाने की माँग की.

Lupin Launches Generic Axiron®s Topical Solution in The US

Mumbai:- Pharma major Lupin Mob:- 09219177868, 09927029392, 09410673331, 09528643610 announced the launch of its Testosterone Topical Solution, 30 mg per actuation having received an approval from the United States Food and Drug Administration (FDA) earlier. Lupin's Testosterone Topical Solution, 30 mg per actuation is the generic equivalent of Eli Lilly and Company's Axiron® Topical Solution, 30 mg per actuation. It is indicated for replacement therapy in males for conditions associated with a deficiency or absence of endogenous testosterone. Testosterone Topical Solution, 30 mg per actuation had annual sales of approximately USD 179 million in the US (IQVIA MAT December 2017)

Novartis' Xolair Backed in Global Urticaria Guidelines

Novartis' Mob:- 09759939328, 09999017952 Xolair has been recommended in global guidelines for treating chronic spontaneous urticaria in patients unresponsive to antihistamines. Xolair (omalizumab) is the only licensed treatment option for CSU, a type of chronic urticaria (UC) causing itchy, persistent hives and painful swelling, when antihistamines are not effective. In clinical trials, patients treated with Xolair for 12 weeks experienced significant improvements in quality of life by 78

Novartis' Xolair Backed in Global Urticaria Guidelines

Novartis' Mob:- 09759939328, 09999017952

percent (versus placebo 44 percent) as measured by the Dermatology Life Quality Index (DLQI), the firm noted. The guidelines, which aim to achieve symptom control for patients, recommend the drug as the only treatment qualified with very good efficacy and very good safety in this setting. "This guideline is encouraging news for CSU patients who have difficult to control symptoms," said Shreeram Aradhye chief medical officer and global head medical affairs, Novartis Pharmaceuticals.

UK launch for Europe's First Herceptin Biosimilar

MSD has launched in the UK Europe's first biosimilar to Roche/Genentech's Herceptin, providing an alternative option for treating early breast cancer, metastatic breast cancer and metastatic gastric cancer. Ontruzant (trastuzumab) is the first product approved in the UK under a global biosimilars development and commercialisation agreement between MSD and Samsung Bioepis Co. Clinical trials of the drug have shown it to be highly similar to Herceptin (trastuzumab) in terms of structure, biological activity and efficacy, safety and immunogenicity profile, the firm noted. In early breast cancer, breast pathologic complete response rates were 51.7 percent with Ontruzant and 42 percent with Herceptin, while overall response rates were 96.3 percent and 91.2 percent, respectively. Herceptin currently pulls in nearly \$7 billion a year in sales. While pricing information for Ontruzant is not yet available, biosimilar versions are expected to be significantly cheaper than their reference products, and thus have the potential to generate substantial savings for healthcare providers. "The launch of biosimilar trastuzumab provides a high-quality treatment alternative for patients, while offering significant potential savings for the NHS," said Dr Mark Verrill, head of the Department of Medical Oncology at the Newcastle upon Tyne Hospitals NHS Foundation Trust.

All You Need to Know About Alzheimer's Disease

Do you forget your appointments, name of a person, what were you going to do? This can be normal as a person can forget certain things at a certain time, but if it is becoming very frequent or troublesome then it could be Alzheimer's disease. People with Alzheimer's disease (AD) have problems with memory, thinking and behaviour. Increasing forgetfulness is one of the initial symptoms of Alzheimer's disease (AD). They tend to forget (such as names, places and things) which develops slowly and worsen as the disease progresses and can become severe enough to interfere with their daily life and tasks. **Memory loss that affects day-to-day function:-** Anyone can occasionally forget appointments, a known person's name or a friend's phone number--but the person usually remember it sometime later. But a person with AD may forget about conversations, appointments or events, and not remember them even later. This is more with recent events as the recent memory is affected initially. However, as the disease progresses memory loss worsens gradually and the person can have difficulty in remembering things that happened recently or in the past, names of people they know (even family and friends), recognizing family members and friends, trouble while speaking, reading or writing. **Difficulty performing familiar tasks:-** All of us have occasional memory lapses like you may prepare vegetable and only remember to serve them at the end of a meal. However, a person with AD may have trouble with an everyday task like operating the washing or grinder or cooking a meal and in the later stage of disease doing everyday tasks like brushing teeth or combing hair. **Problems with language:-** Anyone can occasionally have trouble finding the right word. But people with AD may forget simple

words or substitute words, which may make their sentences difficult to understand or totally meaningless. As the disease progresses they may find it difficult to express thoughts or take part in conversations. Slowly the reading and writing skills are affected as well. **Disorientation of time and place:-** You may forget the date or day of the week or where you were going (for a moment) occasionally. But AD may cause memory loss and forgetfulness to progress to a stage where the person can get lost in familiar places and may have no idea where is he or what day and month it is. **Misplacing things:-** It is normal to misplace the keys or wallet occasionally. But people with AD may put things in inappropriate places like clothes in the freezer or keys in the sugar bowl and then forget it. As the disease progresses the person's ability to interpret things, organize thoughts and remember things becomes difficult. A person with AD may initially notice that he has difficulty in remembering things and organizing thoughts. But mostly the person may not notice anything and it is the people around him (like family members, friends or co-workers) who feel the change or feel that something is wrong. If any of your family and friends show inappropriate forgetfulness or other symptoms of

AD consult a doctor. There is no cure for AD but treatment may possibly slow down the progression of the disease, improve symptoms and improve the quality of life for those with Alzheimer's and their caregivers.

FDA Warns of Fraudulent and Unapproved Flu Products

As part of the U.S. Food and Drug Administration's ongoing efforts to protect consumers from health fraud, the agency is reminding consumers to be wary of unapproved products claiming to prevent, treat or cure influenza, or flu. This year's severe flu season raises new concerns about the potential for consumers to be lured into buying unproven flu treatments, and even worse, buying counterfeit antivirals online from websites that appear to be legitimate online pharmacies. "This year the flu has been widespread, impacting millions of patients across the country, and leading to a new record number of flu-related hospitalizations," said FDA Commissioner Scott Gottlieb, M.D. "We understand the toll this year's flu season has taken on peoples' lives. As the flu continues to make people sick - and even cause deaths - unscrupulous actors may also be taking advantage of unsuspecting consumers by promoting their fraudulent products that have not been reviewed by the FDA to be safe and effective. The FDA is warning consumers to be alert, and try and steer clear of fraudulent flu products, which may be found online or in retail stores. We're advising consumers on some of the telltale signs to look for when trying to spot flu products that may be fraudulent. All of us must also continue to be diligent in doing our part to prevent the spread of flu however possible. People who are sick with flu-like symptoms and those who are at high risk of serious flu complications should see a health care professional as soon as possible to see if they should be treated with antiviral drugs." Consumers should be aware that there are no legally marketed over-the-counter (OTC) drugs to prevent or cure the flu. However, there are legal OTC products to reduce fever and to relieve muscle aches, congestion and other symptoms typically associated with the flu. Products sold online are fraudulent if they claim to prevent, treat or cure the flu, and have not been evaluated by the FDA for that intended use.

Community And Vegetables Grow Side-By-Side In Syrian Refugee Camp Gardens

Fig and pomegranate trees, grapes, carrots, and narcissus flowers are some of the plants that Aveen Ismail like to grow in the Domiz refugee camp in Northern Iraq where they live. That's because these plants remind her of Syria and home. At first, Ismail did not find the dry land welcoming. But she values greenery and gardening, so she cultivated a small patch of land next to the house her family built in the camp. In 2015, after seeing her garden, members of a U.K.-based nonprofit called The Lemon Tree Trust asked Ismail to help them encourage others to garden in the camp. Now she has a formal role with the group. "I hope to give a beautiful view for my neighbors and support for others, to encourage agriculture, and provide myself with a few fresh vegetables every day," Ismail says. Ismail, her husband, and three children fled the Syrian Civil War in 2011. They left their home in Damascus after several family members were killed in their neighborhood. More than 11 million Syrians have been displaced and more than 250,000 have died in the ongoing war. Ismail's family is among about 26,500 refugees in the Domiz camp, which covers approximately 710 square miles. The Lemon Tree Trust is an international branch of Citizen D, a Texas-based nonprofit that focuses on developing urban agriculture projects with marginalized communities, including refugees. Trust Founder Stephanie Hunt says the Kurdish Regional Government that manages the Domiz camp is unique because it is "particularly open to ideas around tree planting, gardening, agriculture and landscape improvement." The Trust team approached the camp community and got to know the population by surveying established green spaces, talking to local gardeners, and connecting community members. They funded a small nursery in the camp and hired refugees like Ismail to disseminate seeds, trees, and knowledge. But what really got refugee gardeners engaged was a Trust-sponsored home garden competition - now an annual event - with cash prizes. The number of participants rose from 50 to 150 between 2016 and 2017, says Hunt. After the first contest, the Trust brought the community together to hear its priorities for greening the space. "A training and demonstration garden for food growing and small livestock, space for individual garden plots and recreation areas for children," were the strongest desires, project director Carrie Perkins says. The Trust hired refugees to handle the mapping, construction and maintenance of a demonstration garden in an unused plot, which is now a flourishing enterprise and community hub called Azadi Garden. Azadi means "liberation" in Kurdish. It contains greenhouses, tree and plant nurseries, and raised beds for personal, communal, and commercial use. There are also areas for men, women, and children to socialize. A repaired well and gray water - recycled household waste water, excluding toilet sewage - are used to irrigate the arid soil. One of the obstacles refugee camp gardening initiatives like these face is that cultivating the land can feel permanent. While many refugees do end up staying in camps for decades, accepting them as a new home can be difficult. Perkins and her colleagues emphasize the immediate rewards of camp greening with residents - farming skills, keeping memories of home alive, building community, and accessing fruits and vegetables they would not otherwise have. At Domiz, people access prepackaged and canned goods from a United Nations World Food Programme-run grocery and frozen meat from butchers, but rarely any fresh food. Now the gardening and livestock programs have introduced olive and fruit trees, tomatoes, potatoes, onions, lettuce, herbs, garlic, rabbits and chickens to the camp, among other products. Shaza Moghraby, a WFP communications officer who previously worked in a Syrian refugee camp, says gardening also gives refugees "a feeling of accomplishment and productivity ... For Syrians who are used to working and producing at a relatively young age, it was pretty traumatic for them to spend their day doing nothing." There is a lack of employment in the Domiz camp for workers of all levels of expertise and education. Ismail's husband was unable to take construction work, which was the main type available, due to a back injury. Instead, he joined the Peshmerga, a Kurdish force fighting the Islamic State. He sends his earnings home and comes back to his family every 10 days. It is not uncommon for women to stay in the camp when men leave to find work, and there are many women who must become independent or bring up families on their own. To support its camp gardeners, the Trust pays wages that are reduced annually with the intention that over time, the gardeners will be able to make money selling some produce. The refugee gardeners even made a deal to sell produce to a local supermarket. The Trust also helped launch a workers' cooperative to design and build Crisis Response Garden Kits, which provide new refugees with tools and seeds to begin growing food as soon as they arrive. The Trust hopes the project will become a "self-contained business" for Domiz families when they obtain orders from other relief organizations in crisis regions. Daily, Hunt and Perkins fight public perceptions that refugees are somehow responsible for their plight or helpless, or that camps are hopeless environments. "They want to be a productive part of humanity, just like us all," Hunt says. The Trust is also currently working in Jordan and Uganda and plans to branch out into other regions in Iraq, as well as potentially in Greece and Bangladesh. Ismail, along with about half of the camps' population, wants to stay in Domiz. She is ready to drop the refugee label and hopes to see the area become a regular village. She sees the effect of the community's greening and growth on her neighbors faces; "I see their smiling looks to their plants, full of love and longing. It brings me peace."

Vegetarian diet Just as Effective as Mediterranean diet in Reducing Heart Disease Risk, Claims Study

New Delhi:- Researchers have claimed that a vegetarian diet which includes eggs and dairy products but is devoid of meat and fish, can be as effective as the Mediterranean diet when it comes to reducing the risk of heart diseases and stroke. While a lacto-ovo-vegetarian diet includes animal products such as eggs and dairy products but excludes the intake of meat and fish, the Mediterranean diet includes the consumption of poultry, fish and some red meat as well as fruits, vegetables, beans and whole grains. "The take-home message of our study is that a low-calorie lacto-ovo-vegetarian diet can help patients reduce cardiovascular risk about the same as a low-calorie Mediterranean diet," said lead author Francesco Sofi, Professor at the University of Florence in Italy. "People have more than one choice for a heart-healthy diet," Sofi added. The study found that a vegetarian diet was more effective at reducing LDL (the "bad") cholesterol, while the Mediterranean diet resulted in greater reductions in triglycerides, high levels of which increase the risk for heart attack and stroke. The research included 107 healthy but overweight participants, between 18 and 75 years of age, who were randomly assigned to follow for three months either a low-calorie vegetarian diet, which included dairy and eggs, or a low-calorie Mediterranean diet for three months. The results showed that people on either diet had lost about four pounds of their weight overall, along with a three-pound loss of body fat. They also experienced about the same change in body mass index, a measure of weight in relationship to height. The study was published in the journal Circulation.

डिप्रेशन से कैसे निपटें?

डिप्रेशन यानी अवसाद का अर्थ है कि आप अपने अंदर जीवन के उल्लास को कायम नहीं रख पाते. इसका असर आपके शरीर पर भी पड़ता है. अगर आप अवसाद में हैं, तो भौतिक शरीर भी परेशानी झेलता है. आपके अंदर का जीवन उल्लासमय नहीं है, उसने अपना उल्लास खो दिया है क्योंकि आप उसके साथ सही बर्ताव नहीं कर रहे हैं. दरअसल आप कुछ बाहरी बेकार चीजों को अपने भीतर बहुत ज्यादा थोप रहे हैं. आपने अपनी जीवन-ऊर्जा के स्तर को ऊँचा रखने के लिए कुछ नहीं किया है. डिप्रेशन का स्रोत:- अवसाद एक प्रकार का कष्ट है. अगर आप आनंद नहीं, कष्ट बन गए हैं तो इसकी वजह यह है कि आपकी जीवन-ऊर्जा का एक बड़ा हिस्सा विवशता में घटित हो रहा है, चेतना में नहीं. वह एक तरह से बाहरी हालात की प्रतिक्रिया के तौर पर घटित हो रहा है. जब आपका जीवन विवशता से चलता है, तो डिप्रेशन बहुत स्वाभाविक है क्योंकि बाहरी हालात कभी भी सौ फीसदी आपके काबू में नहीं होते. दुनिया में बहुत सारी चीजें घटित हो रही हैं, अगर आप विवशता में प्रतिक्रिया करते हैं, तो उसमें खो जाना और दुखी होना स्वाभाविक है. आप जीवन के जितने संपर्क में होंगे, उतने ही दुखी होंगे. जब लोग अपने बाहरी जीवन को संभाल नहीं पाते, तो वे अपने जीवन के अलग-अलग पहलुओं से भागने लगते हैं. मगर वह भी काबू से बाहर हो जाता है. आपका एक हिस्सा लगातार विस्तार की खोज में रहता है- आप लगातार सीमाओं और अपने क्रियाकलाप के क्षेत्र को बढ़ाना चाहते हैं. आपका एक दूसरा हिस्सा भी है, जो हर बार निराशा हो जाता है, जब कोई चीज आपके हिस्से से नहीं चलती. डिप्रेशन अपनी उम्मीदों के पूरा नहीं होने पर होता है. अगर आज स्टॉक मार्केट मंदा हो जाए, तो बहुत सारे लोग डिप्रेशन में चले जाएंगे. हो सकता है कि उनमें से बहुतों ने उस पैसे को कभी छुआ भी न हो, मगर हर दिन जब वे ग्राफ को ऊपर जाते देखते हैं, तो उनका मूड भी ऊपर जाता है. अब जब वे ग्राफ को गिरता देखते हैं, तो उनका मूड भी गिर जाता है. इसकी वजह सिर्फ यह है कि उन्होंने जैसी उम्मीद की थी, वैसा नहीं हुआ. लोग कई तरह से डिप्रेशन पैदा करते हैं. जिस भी चीज को वे कीमती मानते हैं, अगर आप उनसे वह चीज छीन लें, तो वे डिप्रेंड हो जाएंगे. बहुत से लोग, खास तौर पर संपन्न समाज में त्रासदी यह है कि उनके पास सब कुछ होते हुए भी कुछ नहीं है. डिप्रेशन का मतलब है कि कहीं न कहीं एक निराशा घर कर गई है. अगर आप देश के कुछ बहुत गरीब गाँवों में चले जाएँ जो वाकई दरिद्र हैं, उनके चेहरे पर आपको आनंद दिखेगा क्योंकि उन्हें उम्मीद है कि उनका कल बेहतर होगा. संपन्न समाजों में वह उम्मीद खत्म हो गई है. डिप्रेशन इसलिए आता है क्योंकि बाहर इस्तेमाल होने वाली हर चीज की व्यवस्था कर ली गई है. लोगों के पास भोजन है, घर है, कपड़े हैं, सब कुछ है, मगर फिर भी कुछ गड़बड़ है. उन्हें पता नहीं है कि गड़बड़ क्या है. एक गरीब आदमी सोचता है, 'कल अगर मुझे नए जूते मिल जाएँ, तो सब कुछ ठीक हो जाएगा'. अगर उसे एक जोड़ी नए जूते मिल जाएँ, तो वह चेहरे पर परम आनंद लिए हुए एक राजा की तरह चलेगा. संपन्न समाज में बाहरी चीजें ठीक होती हैं मगर अंदर गड़बड़ होती है, इसलिए निराशा और अवसाद पैदा होते हैं. जिस तरह हम बाहरी चीजों को ठीक करते हैं, उसी तरह

SPANDEL PHARMADERM

We are seeking persons having experience in selling Pharma and Cosmeceuticals Products. MR'S, ASM's and other persons having aptitude with strong financial background can contact..

अंदर भी ठीक करना चाहिए, फिर दुनिया खूबसूरत होगी. जिसे हम आध्यात्मिक प्रक्रिया कहते हैं, वह सिर्फ यही है. सिर्फ आपके जीवन के बाहरी पहलुओं को ही न ठीक नहीं करना, बल्कि आपके व्यक्तित्व से सम्बंधित पहलुओं का भी ख्याल रखना. अगर उसका ध्यान नहीं रखा जाएगा तो आपके पास सब कुछ होते हुए भी कुछ नहीं होगा.

स्वागत

पिछले दिनों बीकानेर (राजस्थान) में वहाँ की कैमिस्ट एसोसियेशन द्वारा A.I.O.C.D. के अध्यक्ष श्री जगन्नाथ शिन्दे एवं R.D.C.A. मुम्बई अध्यक्ष श्री प्रसाद दानवे जी का भव्य स्वागत किया गया.

फर्जी फूड इन्स्पेक्टर गिरफ्तार

पिछले दिनों होटल राधाकृष्णा, घाटकोपर मुम्बई में एक फर्जी इन्स्पेक्टर को होटल में अवैध उगाही करते हुये रो ग हाथ गिरफ्तार किया. पकड़े गये व्यक्ति के पास नकली फूड सेफ्टी एण्ड स्टैंडर्ड ऑथोरिटी का परिचय पत्र भी प्राप्त हुआ जिसमें इस व्यक्ति का नाम ओमकार भानुशाली अंकित है. जाँच में पता चला की उक्त व्यक्ति अनेक होटलों से अवैध उगाही कर चुका है. घाटकोपर पुलिस उक्त व्यक्ति को हिरासत में लेकर उचित कार्यवाही कर रही है.

चिकित्सा और संगीत

चिकित्सा करना व करवाना दोनों ही तनाव पूर्ण कार्य हैं. ऐसे में संगीत तनाव को कम करने का वातावरण बना सकता है. अस्पतालों में यदि बेकग्राउन्ड से धीमा सुमधुर संगीत बजता रहे ता वहाँ पर कार्यरत डॉक्टर, रोगी एवं अन्य का मन तनाव से दूर रहेगा.

FROM THE MINISTRY OF HEALTH AND FAMILY WELFARE LIST OF DRUGS PROHIBITED FOR MANUFACTURE AND SALE THROUGH GAZETTE NOTIFICATIONS UNDER SEC- TION 26A OF DRUGS & COSMETICS ACT 1940

Drugs Name:- Amidopyrine. ● Fixed dose combinations of vitamins with anti-inflammatory agents and tranquilizers. ● Fixed dose combinations of Atropine in Analgesics and Antipyretics. ● Fixed dose combinations of Strychnine and Caffeine in tonics. ● Fixed dose combinations of Yohimbine and Strychnine with Testosterone and Vitamins. ● Fixed dose combinations of Iron with Strychnine, Arsenic and Yohimbine. ● Fixed dose combinations of Sodium Bromide/chloral hydrate with other drugs. ● Phenacetin. ● Fixed dose combinations of antihistaminic with anti-diarrhoeals. ● Fixed dose combinations of Penicillin with Sulphonamides. ● Fixed dose combinations of Vitamins with Analgesics. ● Fixed dose combinations of any other Tetracycline with Vitamin C. ● Fixed dose combinations of Hydroxyquinoline group of drugs with any other drug except for preparations meant for external use. ● Fixed dose combinations of Corticosteroids with any other drug for internal use except for preparations meant for meter dose inhalers and dry powder inhalers. ● Fixed dose combinations of Chloramphenicol with any other drug for internal use. ● Fixed dose combinations of crude Ergot preparations except those containing Ergotamine, Caffeine, analgesics, antihistamines for the treatment of migraine, headaches. ● Fixed dose combinations of Vitamins with Anti TB drugs except combination of Isoniazid with Pyridoxine Hydrochloride (Vitamin B6). ● Penicillin skin/eye Ointment. ● Tetracycline Liquid Oral preparations. ● Nialamide. ● Practolol. ● Methapyrilene, its salts. ● Methaqualone. ● Oxytetracycline Liquid Oral preparations. ● Demeclocycline Liquid Oral preparations. ● Combination of anabolic Steroids with other drugs. ● Fixed dose combination of Oestrogen and Progestin (other than oral contraceptive) containing per tablet Estrogen content of more than 50 mcg (equivalent to EthinylEstradiol) and content of more than 3 mg (equivalent to Norethisterone Acetate) and all fixed dose combination injectable preparations containing synthetic Oestrogen and Progesterone. ● Fixed dose combination of Sedatives/ hypnotics/anxiolytics with analgesics-antipyretics. ● Fixed dose combination of Rifampicin, isoniazid and Pyrazinamide, except those which Provide daily adult dose given below: Drugs Minimum Maximum Rifampicin 450 mg 600 mg Isoniazid 300 mg 400 mg Pyrazinamide 1000mg 1500 mg ● Fixed dose combination of Histamine H-2 receptor antagonists with antacids except for those combinations approved by Drugs Controller, India. ● The patent and proprietary medicines of fixed dose combinations of essential oils with alcohol having percentage higher than 20% proof except preparations given in the Indian Pharmacopoeia. ● All Pharmaceutical preparations containing Chloroform exceeding 0.5% w/w or v/v whichever is appropriate. ● Fixed dose combination of Ethambutol with INH other than the following: INH Ethambutol 200 mg. 600 mg. 300 mg. 800 mg. ● Fixed dose combination containing more than one antihistamine. ● Fixed dose combination of any anthelmintic with cathartic/purgative except for piperazine/Santonim. ● Fixed dose combination of Salbutamol or any other bronchodilator with centrally acting anti-tussive and/or antihistamine. ● Fixed dose combination of laxatives and/or anti-spasmodic drugs in enzyme preparations. ● Fixed dose combination of Metoclopramide with systemically absorbed drugs except fixed dose combination of metoclopramide with aspirin/paracetamol ● Fixed dose combination of centrally acting, anti-tussive with antihistamine, having high atropine like activity in expectorants. ● Preparations claiming to combat cough associated with asthma containing centrally acting antitussive and/ or an antihistamine. ● Liquid oral tonic preparations containing glycerophosphates and/or other phosphates and / or central nervous system stimulant and such preparations containing alcohol more than 20% proof. ● Fixed dose combination containing Pectin and/or Kaolin with any drug which is systemically absorbed from GI tract except for combinations of Pectin and/or Kaolin with drugs not systemically absorbed. ● Chloral Hydrate as a drug. ● Dovers Powder I.P ● Dover's Powder Tablets I.P. ● Antidiarrhoeal formulations containing Kaolin or Pectin or Attapulgit or Activated Charcoal. ● Antidiarrhoeal formulations containing PhthalylSulphathiazole or Sulphaguanidine or SuccinylSulphathiazole. ● Antidiarrhoeal formulations containing Neomycin or Streptomycin or Dihydrostreptomycin including their respective salts or esters. ● Liquid Oral antidiarrhoeals or any other dosage form for pediatric use containing DiphenoxylateLoroperamide or Atropine or Belladonna including their salts or esters or metabolitesHyoscyamine or their extracts or their alkaloids. ● Liquid Oral antidiarrhoeals or any other dosage form for pediatric use containing halogenated hydroxyquinolines. ● Fixed dose combination of antidiarrhoeals with electrolytes. ● Patent and Proprietary Oral Rehydration Salts other than those conforming to the following parameters: (a) Patent and Proprietary oral rehydration salts on reconstitution to one litre shall contain: Sodium – 50 to 90 milliosmoles Total osmolarity – 240-290 milliosmoles Dextrose: Sodium molar ratio – Not less than 1:1 and not more than 3:1 (b) Patent and proprietary cereal based oral rehydration salts on reconstitution to one litre shall contain: Sodium – 50 to 90 milliosmoles Total osmolarity – Not more than 290 milliosmoles Precooked rice – equivalent to not less than 50gms and not more than 80gms as total replacement of dextrose (c) Patent and proprietary oral rehydration salts (ORS) may contain amino acids in addition to oral rehydration salts conforming to the parameters specified above and labelled with the indication for "Adult Chlorotic Diarrhea Only" (d) Patent and proprietary oral rehydration salts (ORS) shall not contain mono or polysaccharides or saccharin sweetening agent. ● Fixed dose combination of Oxyphenbutazone or Phenylbutazone with any other drug. ● Fixed dose combination of Analgin with any other drug. ● Fixed dose combination of dextropropoxyphene with any other drug other than anti-spasmodics and/or non-steroidal anti-inflammatory drugs (NSAIDS). ● Fixed dose combination of a drug, standards of which are prescribed in the Second Schedule to the said Act with an Ayurvedic, Siddha or Unani drug. ● Mepacrine Hydrochloride (Quinacrine and its salts) in any dosage form for use for female sterilization or contraception. ● Fenfluramine ● Dexfenfluramine. ● Fixed dose combination of Diazepam and Diphenhydramine Hydrochloride. ● Cosmetics Licensed as toothpaste/tooth powder containing tobacco. ● Parenteral Preparations fixed combination of streptomycin with Penicillin ● Fixed dose combination of Vitamin B1/Vitamin B6 and Vitamin B12 for human use ● Fixed dose combination of haemoglobin in any form (natural or synthetic). ● Fixed dose combination of Pancreatin or Pancrelipase containing amylase, protease and lipase with any other enzyme. ● Fixed dose combination of Nitrofurantoin and trimethoprim. ● Fixed dose combination of Phenobarbitone with any anti-asthmatic drugs. ● Fixed dose combination of Phenobarbitone with Hyoscine and/or Hyoscyamine ● Fixed dose combination of Phenobarbitone with Ergotamine and/or Belladonna ● Fixed dose combination of Haloperidol with any anti-cholinergic agent including Propantheline Bromide. ● Fixed dose combination of Nalidixic Acid with any anti-amoebic including Metronidazole. ● Fixed dose combination of Loperamide Hydrochloride with Furazolidone ● Fixed dose combination of Cyproheptadine with Lysine or Peptone. ● Astemizole ● Terfenadine ● Phenformin ● Rofecoxib and its formulations ● Valdecoxib and its formulations ● Diclofenac and its formulations (for animal use) ● Rimonabant. ● Rosiglitazone ● Nimesulide formulations for human use in children below 12 years of age. ● Cisapride and its formulations for human use. ● Phenylpropranolamine and its formulations for human use. ● Human Placental Extract and its formulations for human use except its 1. Topical application for wound healing, and 2. Injection for pelvic inflammatory disease. ● Sibutramine and its formulations for human use. ● R-Sibutramine and its formulations for human use. ● "Gatifloxacin formulation for systemic use in human by any route including oral and injectable". ● Tegaserod and its formulations ● Letrozole for induction of ovulation in anovulatory infertility. ● Serodiagnostic test kits for diagnosis of tuberculosis ● Dextropropoxyphene and formulations containing Dextropropoxyphene for human use ● Fixed dose combination of Flupentixol + Melitracen for human use ● Analgin and all formulations containing analgin for human use ● Pioglitazone and all formulations containing Pioglitazone for human use ● Aceclofenac + Paracetamol + Rabepazole ● Nimesulide + Diclofenac ● Nimesulide + Cetirizine +Caffeine ● Nimesulide +Tizanidine ● Paracetamol + cetirizine + caffeine ● Diclofenac + Tramadol + Chlorzoxazone ● Dicyclomine +Paracetamol +Domperidone ● Nimesulide +Paracetamol dispersible tablets ● Paracetamol + Phenylephrine + Caffeine ● Diclofenac +Tramadol +Paracetamol ● Diclofenac + paracetamol + chlorzoxazone + famotidine ● Naproxen+Paracetamol ● Nimesulide + serratiopeptidase ● Paracetamol +Diclofenac +Famotidine ● Nimesulide + Pitofenone + Fenpiverinium + benzyl alcohol ● Omeprazole + Paracetamol + Diclofenac ● Nimesulide + Paracetamol injection ● Tamsulosin + diclofenac ● Paracetamol +Phenylephrine +Chlorpheniramine +Dextromethorphan +Caffeine ● Diclofenac +Zinc Carnosine ● Diclofenac + paracetamol+ chlorpheniramine maleate + magnesium trisilicate ● Paracetamol + pseudoephedrine + cetirizine ● Phenylbutazone+Sodium Salicylate ● Lornoxicam+Paracetamol+Trypsin ● Paracetamol +Mefenamic Acid +Ranitidine +Dicyclomine ● Nimesulide + Dicyclomine ● Heparin +Diclofenac ● Glucosamine +Methyl SulfonylMethane+Vitamin D3 + Manganese + Boron+ Copper +Zinc ● Paracetamol +Tapentadol ● Tranexamic Acid + Proanthocyanidin ● BenzoxoniumChloride+Lidocaine ● Lornoxicam +Paracetamol +Tramadol ●

श्री राजेन्द्र कुमार मो० 09818740547
Franconova Life Sciences
 487/30, Outer Ring Road,
 Behind Petrol Pump, New
 Delhi-87 को अपने देहली हेड ऑफिस
 में एक Professional Manger जो
 कार्यालय से कम्पनी के प्रोडक्ट्स के
 PCD, Franchisee एवं 3rd Party
 Manufacturing ग्राहकों को कॉल कर
 कम्पनी का व्यापार प्रमोट कर सके. आर्कषक
 वेतन. अनुभवों को वरियता दी जायेगी.

जाँचें

मेरे मित्र मनोहर लाल बीमार पड़ गए. बेहद
 कंजूस इंसान है, जो काफी समय बाद डॉक्टर
 के पास पहुँचे. डॉक्टर ने जाँचें लिख दी. काफी
 हा-ना के बाद जाँचें हुई. लेकर डॉक्टर के पास
 पहुँचे. वहाँ से दवाओं की पर्ची लेकर बड़े दुखी
 हाल में वापस आए. आते ही अजीब सी बात
 कह दी, "जाँचों में कोई खराबी नहीं निकली.
 अब ये धन की बरवादी नहीं तो और क्या है?"

FDA Approves Trogarzo

The U.S. Food and Drug Administration approved Trogarzo (ibalizumab-uiyk), a new type of antiretroviral medication for adult patients living with HIV who have tried multiple HIV medications in the past (heavily treatment-experienced) and whose HIV infections cannot be successfully treated with other currently available therapies (multidrug resistant HIV, or MDR HIV). Trogarzo is administered intravenously once every 14 days by a trained medical professional and used in combination with other antiretroviral medications. "While most patients living with HIV can be successfully treated using a combination of two or more antiretroviral drugs, a small percentage of patients who have taken many HIV drugs in the past have multidrug resistant HIV, limiting their treatment options and putting them at a high risk of HIV-related complications and

progression to death," said Jeff Murray, M.D., deputy director of the Division of Antiviral Products in the FDA's Center for Drug Evaluation and Research. "Trogarzo is the first drug in a new class of antiretroviral medications that can provide significant benefit to patients who have run out of HIV treatment options. New treatment options may be able to improve their outcomes." The safety and efficacy of Trogarzo were evaluated in a clinical trial of 40 heavily treatment-experienced patients with MDR HIV-1 who continued to have high levels of virus (HIV-RNA) in their blood despite being on antiretroviral drugs. Many of the participants had previously been treated with 10 or more antiretroviral drugs. The majority of participants experienced a significant decrease in their HIV-RNA levels one week after Trogarzo was added to their failing antiretroviral regimens. After 24 weeks of Trogarzo plus other antiretroviral drugs, 43 percent of the trial's participants achieved HIV RNA suppression. The clinical trial focused on the small patient population with limited treatment options and demonstrated the benefit of Trogarzo in achieving reduction of HIV RNA. The seriousness of the disease, the need to individualize other drugs in the treatment regimen, and safety data from other trials were considered in evaluating the Trogarzo development program. A total of 292 patients with HIV-1 infection have been exposed to Trogarzo IV infusion. The most common adverse reactions to Trogarzo were diarrhea, dizziness, nausea and rash. Severe side effects included rash and changes in the immune system (immune reconstitution syndrome). The FDA granted this application Fast Track, Priority Review and Breakthrough Therapy designations. Trogarzo also received Orphan Drug designation, which provides incentives to assist and encourage the development of drugs for rare diseases.

Order From the Desk of C.D.S.C.O.

Subject : Setting up of public Relation Office at CSSCO (HQ) - regarding
 If has been decided to set up a public Relation Office at CDSCO (HQ) to be headed by Shri Sunil Kulshreshtra Assistant Drugs Controller (India) with Shri Sanjay Aggarwal, Drug Inspector and Ms Vibha Sharma Asstt. Drug Inspcrctor. This office shall be located behind the existing Reception of CDSCO, FDA Bhavan and will function from 10.00 AM to 5.30 PM on all working days. The office shall directly report to DCGI. The Public Relation Office shall act as 'Single Window' for disposal of grievances of Stakeholders and shall also provide information to the innovators regarding regulatory requirements for commercialisation
