-पूनम सिंघल, मो०-9219444474.

समयानुपाल

नर्सिंग होम के बाहर आक्रोषित भीड़ खड़ी थी। चिल्ला रहे थे, "यदि समय पर डॉक्टर साहब आ जाते तो रोगी की जान बच जाती।" यकायक दरवाजे पर डॉक्टर साहब के असिस्टेंट प्रकट हो गए। धीमे स्वर में बोल रहे थे, "अन्दर हार्ट अटैक से डॉक्टर साहब की मृत्यु हो गई है." एक खामोशी छा गई.

बच्चे की मुस्कराहट

विश्व की शायद सबसे प्यारी चीज है किसी बच्चे के चेहरे पर मुस्कराहट को लाना. उस जैसी निर्मल चीज विश्व में शायद दूसरा नहीं है. इस टेशन भरे दुनिया में यह मुस्कराहट सुख की किलकारियाँ फैला सकती है. रोज एक बच्चे को हंसाईएँ और टेशन मुक्त हो जाइए.

Malaria Fever खूनी मलेरिया की चपेट में कानपुर शहर! अस्पतालों में बड़े मरीज, जानें इससे बचाव के उपाय

कानपुर शहर में फैली गंदगी और जलभराव के कारण आसपास के इलाकों में मच्छरों की भरमार हो गई है। इससे मच्छर जनित रोगों के फैलने की संभावना बढ़ गई है। हालांकि डेंगू के कई मामले पहले ही सामने आ चुके हैं, अब दबे पांव खूनी मलेरिया यानी प्लाज्मोडियम फाल्सीपेरम ने भी शहर में दस्तक दे दी है। स्वास्थ्य विभाग की मानें तो इस मलेरिया बुखार ने अब तक 5 लोगों को अपनी गिरफ्त में ले चुका है, जिन्हें एलएलआर हॉस्पिटल (हैलट) में भर्ती कराया गया है। शहर के

AstraZeneca's Triple-Combination Therapy Breztri Aerosphere (Budesonide/Glycopyrronium/Formoterol Fumarate 320/14.4/9.6mcg) Has Hit Its Primary Endpoint In The Phase III ETHOS Trial, The Company Has Announced

The drug – formerly known as PT010 – was analysed in patients with moderate to very severe chronic obstructive pulmonary disease (COPD), and demonstrated a statistically-significant reduction in the rate of moderate or severe exacerbations compared with dual-combination therapies Bevespi Aerosphere (glycopyrronium/formoterol fumarate 14.4/9.6mcg) and PT009 (budesonide/formoterol fumarate 320/9.6mcg). In a key secondary endpoint, Breztri Aerosphere also showed a statistically-significant 52% reduction in the rate of moderate or severe COPD exacerbations compared with Bevespi Aerosphere in a patient population that was not required to have had an exacerbation in the previous 12 months. The safety and tolerability of the triple combo was consistent with the known profiles of the dual comparators and in the trial, all combination therapies were administered in a pressurised metered-dose inhaler (pMDI) using Aerosphere delivery technology. Exacerbations are “devastating events for patients and can lead to a permanent loss of lung function”, explained Mene Pangalos, executive vice president, BioPharmaceuticals R&D. He continued, “The Phase III ETHOS trial builds on the Phase III KRONOS data which together show Breztri Aerosphere’s ability to reduce exacerbation risk in a broad range of patients with COPD, irrespective of whether they have had an exacerbation in the previous twelve months. We look forward to sharing these results with health authorities as soon as possible.” COPD is a progressive disease which can cause obstruction of airflow in the lungs resulting in debilitating bouts of breathlessness. It affects an estimated 384 million people worldwide and is predicted to be the third leading cause of death by 2020.

मलेरिया के मरीज भर्ती कराए जा रहे हैं। कानपुर के सरकारी और प्राइवेट अस्पतालों में मरीजों की संख्या दिन प्रतिदिन बढ़ती जा रही है। एलएलआर हॉस्पिटल में मेडिसिन विभाग की एचओडी प्रोफेसर ऋचा गिरी के मुताबिक, अस्पताल में भर्ती खूनी मलेरिया से ग्रसित दो मरीजों की किडनी पर भी असर पड़ा है। उनकी तिल्ली बढ़ने से खून की रेड ब्लड सेल यानी आरबीसी टूटकर किडनी में जमा हो जाती है। संक्रमण होने से पेशाब में खून आने लगता है। इससे किडनी फेल होने का खतरा बढ़ जाता है। ऐसे में डायलिसिस करानी पड़ती है। वहीं खूनी मलेरिया से ग्रस्त 3 मरीजों के मस्तिष्क पर भी असर पड़ा है। मलेरिया के परजीवी रक्त के माध्यम से दिमाग में पहुँचने पर सूजन आ जाती है। जिससे झटके और बेहोशी होने की संभावना बढ़ने लगती है। गंभीर स्थिति में खूनी पंचिश और उल्टियाँ भी आने लगती हैं। मरीज धीरे-धीरे कोमा में जाने लगता है। इलाज में लाप. रवाही से मरीज की मौत भी हो सकती है। क्या है प्लाज्मोडियम फाल्सीपेरम:- यह मलेरिया का ही एक रूप है। गंभीर मलेरिया विशेष रूप से प्लाज्मोडियम फाल्सीपेरम के कारण होता है और आमतौर पर संक्रमण के बाद 6-14 दिन रहता है। इस प्रजाति से मलेरिया फैलने के बाद पीड़ित या तो कोमा में जा सकता है या फिर कुछ घंटों/दिनों के भीतर उसकी मृत्यु हो जाती है। सबसे अधिक मलेरिया भी इसी परजीवी के माध्यम से फैलते हैं। मलेरिया वाइवैक्स की मामले आए सामने:- कानपुर के GSVM मैडीकल कॉलेज के मेडिसिन विभाग के डॉक्टरों के मुताबिक, ओपीडी में आए कई मरीजों के खून के नमूने की जाँच में मलेरिया वाइवैक्स की पुष्टि हुई है। वहीं पाँच मरीजों में खूनी मलेरिया की भी पुष्टि हुई है, जो खतरों की घंटी है। मरीजों की गंभीर स्थिति को देखते हुए उन्हें अस्पताल में भर्ती किया गया है। इससे बचाव के तरीके:- साफ-सफाई का ध्यान रखें। • मच्छरदानी का इस्तेमाल करें। • मच्छरों से दूर रहें। • शरीर को ढक कर रखें। • पूरी बांह के कपड़े पहनें। • घर के आसपास जलभराव न होने दें।

Apollo Hospitals Group Sign MoU Taking Healthcare to India's Remote Regions

The American Association of Physicians of Indian Origin, one of the largest ethnic medical associations in the United States, Aug. 18 announced that, harnessing the vast potential of over 100,000 Indian American physicians, has made significant contributions towards addressing several issues affecting the healthcare system in India through its annual Global Healthcare Summit held across the cities in India. During the groundbreaking 13th annual summit held July 21 through July 24 in Hyderabad, the association signed a memorandum of understanding with HealthNet Global Ltd., a company owned by Apollo Hospitals Group, with the objective of delivering virtual second opinion consultations to millions of Indians in the vast rural areas of India, where they are unable to get required medical care, it said in a news release. The MoU was signed between AAPI by Dr. Suresh Reddy, president of AAPI, and HNG by Sangitha Reddy, managing director of Apollo Group. “It is our love for our motherland, India that brings us to India every year at this annual Global Healthcare Summit. Among other many achievements of the GHS 2019, we are very happy with this

collaboration with Apollo Hospitals. It is a great opportunity for all the Indian-origin physicians living in the US to serve the country of their birth,” Suresh Reddy said in a statement. As part of the collaboration, AAPI members will deliver free virtual consultations to the underserved rural population of Indian states like Jharkhand, Uttar Pradesh, Andhra Pradesh, Rajasthan and other states where HNG has a presence. The collaboration would also enable patients to seek second opinions from distinguished doctors based in the United States of America for complicated clinical problems and procedures. “This collaboration will provide people across the country access to the best specialists of Indian origin residing in the United States. This collaboration is another example of our continuous endeavor to provide affordable and best healthcare services to people across India.” Dr. Prathap Reddy, chairman and founder of Apollo Hospitals Group and president of the Global Association of Physicians of Indian Origin. AAPI notes that the following are valuable benefits offered to indigenous population of India free of cost: high quality healthcare advice by educated professionals in the U.S.; uniform standard treatment guidelines perspective; increase in accessibility to high quality healthcare professionals; and services being provided free of cost to rural population of India. The virtual consultations will be a boom for the Indian society at large, the association added. This platform can also provide private consultation if required from specialist in the U.S. for a preset fee and the money will be sent to AAPI.

Sebi Inquiry Clears Sun Pharma, Finds No Merit In Allegations Of Fraud

A preliminary enquiry by the Securities and Exchange Board of India (Sebi) has found no merit in allegation of violation of securities laws, levelled by a whistleblower, against pharmaceutical major Sun Pharmaceutical Industries, said two persons aware of the matter. The market regulator had sought detailed answers on two queries — 1. Alleged fund diversion of Rs 42,000 crore, through the company's key distributor and subsidiary, Aditya Medisales (AML); 2. On the company's 2004 fund raising through foreign currency convertible bonds (FCCB). The investigation team is of the view that the matter does not require further probe, said sources. The team sent its report to the Sebi committee for vetting. It will make observations, provide remarks, and submit it to the board of the regulator. Sources said according to the report, the alleged diversion never generated huge profits. "The regulator had sought hundreds of documents to understand and examine the trade agreement between AML and Sun Pharma," said one source, adding: "AML's books showed it had never generated profits more than Rs 30 crore. The company's turnover never reached Rs 10,000 crore in past five years (2013-2018)." AML is a distribution company, classified as a promoter shareholder by Sun Pharma. It owned a 1.6 per cent stake as of December 31, 2018. However, it could not be ascertained whether Sebi was convinced with the pharma major's argument of declaring AML a related party only in the financial year 2017-18. To explain the trade agreement with its distributor, Sun Pharma submitted the copy of the agreement between AML and carrying and forwarding agents (CFAs), who have a proper drug licence to reach out to various locations. AML is said to have arrangements with separate CFAs who have a demarcated warehouse and drug licence. A Sun Pharma spokesperson said "We have not received any intimation from Sebi regarding the investigation." On fund raising, the Sebi team is of view that Sun Pharma had a limited role. "Jeremy Capital was taken by Sun to market their issue in Europe and had underwritten only \$1,000 out of an issue of \$275 million," said a source. Back in 2004, for the FCCB fund raising transactions, the pharma major had hired Jeremy Capital as its second lead manager. A Macquaire analyst had alleged that Jeremy Capital had links with some banned traders. Sebi's enquiry followed allegations made by a whistleblower in a 150-page complaint to Sebi accusing Sun Pharma of committing corporate governance and tax-related offences and securities market-related violations. Specifically, the whistleblower complained of a fund diversion of Rs 42,000 crore and of personal profits being made to the tune of Rs 10,000 crore. The letter is also believed to allege that AML had thousands of crores of rupees worth of transactions with a real estate firm that is controlled by a director on the Sun Pharma board.

The National Institute For Health And Care Excellence Of London Has Published An Updated Guideline On The Diagnosis And Treatment Of Hypertension.

The organisation has announced that the final guideline confirms the lower CVD risk threshold at which treatment for hypertension should be considered, in discussion with patients. Specifically, it recommends that blood pressure lowering drugs should be offered to people aged under 80 with a diagnosis of stage I hypertension who have an estimated 10-year risk of CVD of 10% or more, which is a reduction from the 20% CVD risk threshold for treatment recommended in NICE's 2011 guideline. The new guideline also continues to use a blood pressure reading of 140/90mmHg and above as the level used to define hypertension. Hypertension is defined as a long-term medical condition in which the blood pressure in the arteries is persistently elevated, affecting around 13.5 million people and contributing to 75,000 deaths in 2015, making it by far the biggest preventable cause of death and disability in the UK through strokes, heart attacks and heart failure. The clinical management of hypertension accounts for 12% of visits to primary care and up to £2.1 billion of healthcare expenditure. Over the last decade progress has been made to improve the diagnosis and management of hypertension, and as a result the average blood pressure in England has fallen by about 3 mmHg systolic and the proportion of adults with untreated high blood pressure has decreased. However, the Public Health England Blood Pressure Action Plan announced in 2015 called for further measures to reduce average blood pressure by a further 5 mmHg through improved prevention, detection and management.

New Cancer Research Could Help Boost Immunotherapy Treatments

Scientists have found a way to pull down the protective wall that surrounds tumours, potentially re-exposing them to the killing power of the immune system and immunotherapy treatments, Cancer Research UK has announced. A study published in EBioMedicine found that the approach could help to boost the effects of innovative cancer treatments, such as CAR-T therapy, which so far haven't been used successfully to tackle solid tumours. Drs Francis Mussai and Carmela De Santo, based at the University of Birmingham, studied immune cells called myeloid-derived suppressor cells or 'MDSCs', taken from the blood of 200 adults and children newly diagnosed with cancer before they had started treatment. These cells send out a barrage of chemical signals that shield tumour cells from the immune system and the effects of treatment, and prevent the activation of T cells that can kill tumour cells. When MDSCs are present in higher numbers, the outlook for patients is worse as their cancer can become resistant to treatment and is more likely to spread to other parts of the body. Dr Francis Mussai, lead author of the study and Cancer Research UK Clinical Scientist Fellow at the University of Birmingham, explained that "treatments that work with the immune system to kill cancer often fail because it can be difficult for our body's defences to get access to the tumour cells. Our research indicates that giving this antibody drug alongside immunotherapies could dramatically increase the number of patients benefitting from the latest innovations in treatment."

Dr. T.K. Lahri

ईश्वर स्वरूप चिकित्सक Dr. T.K. Lahri जिसे हॉस्पिटल आते देख लोग अपनी घड़ी की टाइमिंग सही करते हैं.

जिस दौर में लाशों को भी वेंटीलेटर पर रखकर बिल भुनाने से कई डॉक्टर नहीं चूकते, उस दौर में इस देवतुल्य चिकित्सक की कहानी दिल को गदगद कर देती है. जब तमाम डॉक्टर सरकारी नौकरी छोड़ प्राइवेट प्रैक्टिस से करोड़ों का अस्पताल खोलना फायदेमंद समझते हैं, तब बीएचयू के प्रख्यात कार्डियोलॉजिस्ट पद्मश्री प्रो. डॉ. टी. के. लहरी साहब अद्भुत हैं. आप हैरत में पड़ेंगे. मैडीकल कॉलेज में तीन दशक की प्रोफेसरी में पढ़ा-लिखाकर सैकड़ों डॉक्टर तैयार करने वाले लहरी साहब के पास खुद का चारपहिया वाहन नहीं है. आज जब तमाम डॉक्टर चमक-दमक. ऐशोआराम की जिंदगी जीते हैं. लंबी-लंबी मँहगी कारों से चलते हैं. चंद कमीशन के लिए दवा कंपनियों और पैथालॉजी सेंटर से सांठ-गांठ करने में ऊर्जा खपाते हैं. नोटों के लिए दौड़-भाग करते हैं. तब प्रो. लहरी साहब आज भी अपने आवास से अस्पताल तक पैदल ही आते जाते हैं. मरीजों के लिए किसी देवता से कम नहीं हैं. उनकी बदौलत आज लाखों गरीब मरीजों का दिल धड़क रहा है, जो पैसे के अभाव में मँहगा इलाज करने में लाचार थे. गंभीर हृदय रोगों का शिकार होकर जब तमाम गरीब मौत के मुँह में समा रहे थे. तब डॉ. लहरी ने फरिश्ता बनकर उन्हें बचाया. प्रो. टी. के. लहरी बीएचयू से 2003 में ही रिटायर हो चुके हैं. चाहते तो बाकी साथियों की तरह बनारस या देश के किसी कोने में आलीशान हॉस्पिटल खोलकर करोड़ों की नोट एकत्र करने लगते. मगर खुद को नौकरी से रिटायर माना चिकित्सकीय सेवा से नहीं. रिटायर होने के बाद 15 साल बाद भी बीएचयू को अपनी सेवाएं दे रहे हैं. वो भी पूरी तरह मुफ्त. आप यह जानकर सिर झुका लेंगे. सोचेंगे कि चरण मिल जाए तो छू लूं. जब पता चलेगा कि प्रो. लहरी साहब पेंशन से सिर्फ अपने भोजन का पैसा रखते हैं, बाकी बीएचयू को दान दे देते हैं. ताकि महामना का यह संस्थान उस पैसों से गरीबों को खिदमत कर सके. इस महान विभूति की गाथा यहाँ नहीं खत्म होती. समय के पाबंद लोगों के लिए भी प्रो. लहरी मिसाल हैं. 75 साल की उम्र में भी वक्त के इतने पाबंद हैं कि उन्हें देखकर बीएचयू के लोग अपनी घड़ी की सूईया मिलाते हैं. वे हर रोज नियत समय पर बीएचयू आते हैं और जाते हैं. प्रो. लहरी साहब को देखकर बीएचयू का स्टाफ समझ जाता है कि इस वक्त समय घड़ी की सूईया कहाँ पर होंगी. उनके अदम्य सेवाभाव और मरीजों के प्रति प्रेम को देखते हुए बीएचयू ने उन्हें इमेरिटस प्रोफेसर का दर्जा दिया हुआ है. यू तो इस विभूति को बहुत पहले ही पद्मश्री जैसे सम्मान मिल जाने चाहिए थे. मगर देर से ही सही, पिछले साल पूरी काशीनगरी तब खुशी से झूम उठी थी. जब इस महान विभूति को 26 जनवरी 2016 को केंद्र सरकार ने पद्मश्री से नवाजा. लाखों मरीजों का दिल धड़काने वाले प्रो. लहरी को मिले सम्मान से पद्मश्री का भी गौरव बढ़ता नजर आया. और हाँ लहरी साहब को देखकर सवाल का जवाब भी मिल गया- डॉक्टरों को भगवान का दर्जा क्यों दिया गया है. उम्मीद है कि डॉ. लहरी साहब के इस देवतुल्य कार्य के बारे में जानकर उन तमाम डॉक्टरों का जमीर जरूर जागोगा, जिनके लिए चिकित्सा धर्म से धंधा बन चुका है. -मनीष अग्रवाल, मो:-08299093892.

नवरात्रों में माँ के नौ रूपों की महिमा

माँ शैलपुत्री

शैल का अर्थ है शिखर. दुर्गा को शैल पुत्री भी कहा जाता है, यह बहुत दिलचस्प बात है. जब ऊर्जा अपने शिखर पर होती है, केवल तभी आप शुद्ध चेतना या देवी रूप को देख, पहचान और समझ सकते हैं. उससे पहले, आप नहीं समझ सकते, क्योंकि इसकी उत्पत्ति शिखर से ही होती है. किसी भी अनुभव के शिखर से यदि आप 100% क्रोधित हैं, तो आप देखें कि किस प्रकार क्रोध आपके सारे शरीर को जला देता है. किसी भी चीज का 100% आपके सम्पूर्ण अस्तित्व को घेर लेता है- तब ही वास्तव में दुर्गा की उत्पत्ति होती है.

माँ ब्रह्मचारिणी

ब्रह्मचारिणी का अर्थ है अनंत में व्याप्त, अनंत में गतिमान - असीम ब्रह्मा असीम है जिसमें सबकुछ समाहित है. आप यह नहीं कह सकते कि, 'मैं इसे जानता हूँ', क्योंकि यह असीम है; जिस क्षण 'आप जान जाते हैं', यह सीमित बन जाता है और अब आप यह नहीं कह सकते कि, "मैं इसे नहीं जानता", क्योंकि यह वहाँ है - तो आप कैसे नहीं जानते? क्या आप कह सकते हैं कि, "मैं अपने हाथ को नहीं जानता. आपका हाथ तो वहाँ है न. इसलिये, आप इसे जानते हैं. ब्रह्म असीम है, इसलिये आप इसे नहीं जानते- आप इसे जानते हैं और फिर भी आप इसे नहीं जानते. दोनों ! इसीलिये, यदि कोई आपसे पूछता है तो आपको चुप रहना पड़ता है. जो लोग इसे जानते हैं वे बस चुप रहते हैं क्योंकि यदि मैं कहता हूँ कि, "मैं नहीं जानता", मैं पूर्णतः गलत हूँ और यदि मैं कहता हूँ कि, "मैं जानता हूँ", तो मैं उस जानने को शब्दों द्वारा, बुद्धि द्वारा सीमित कर रहा हूँ. इस प्रकार, ब्रह्मचारिणी वो है, जोकि असीम में विद्यमान है, असीम में गतिमान है. गतिहीन नहीं, बल्कि अनंत में गतिमान. ये बहुत ही रोचक है- एक गतिमान होना, दूसरा विद्यमान होना. ब्रह्मचर्य का अर्थ है तुच्छता में न रहना, आशिकता से नहीं पूर्णता से रहना. इस प्रकार, ब्रह्मचारिणी चेतना है, जोकि सर्व-व्यापक है.

माँ चन्द्रघंटा

प्रायः, हम अपने मन से ही उलझते रहते हैं- सभी नकारात्मक विचार हमारे मन में आते हैं, ईर्ष्या आती है, घृणा आती है और आप उनसे छुटकारा पाने के लिये और अपने मन को साफ करने के लिये संघर्ष करते हैं. मैं कहता हूँ कि ऐसा नहीं होने वाला. आप अपने मन से छुटकारा नहीं पा सकते. आप कहीं भी भाग जायें, चाहे हिमालय पर ही क्यों न भाग जायें? आपका मन आपके साथ ही भागेगा. यह आपकी छाया के समान है. हाँ, प्राणायाम, सुदर्शन क्रिया बहुत सहायक हो सकते हैं; पर फिर भी मन सामने आ ही जाता है. मन को घंटे की ध्वनि के समान स्वीकार करें- घंटे की ध्वनि एक होती है, यह कहीं नहीं हो सकती, यह केवल एक ही ध्वनि उत्पन्न कर सकता है- सभी छायाओं के बीच मन में एक ही ध्वनि ! सारी अस्तव्यस्तता दैवीय शक्ति का उद्भव करती है- वो है चन्द्रघंटा अर्थात् चन्द्र और घंटा.

माँ कूष्माण्डा

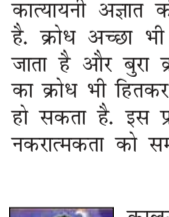

'कू' का अर्थ है छोटा, 'इश' का अर्थ है ऊर्जा और 'अंडा' का अर्थ है ब्रह्मांडीय गोला- सृष्टि या ऊर्जा का छोटे से बृहद ब्रह्मांडीय गोला. यह बड़े से छोटा होता है और छोटे से बड़ा; यह बीज से बढ़ कर फल बनता है और फिर फल से दोबारा बीज हो जाता है. इसी प्रकार, ऊर्जा या चेतना में सूक्ष्म से सूक्ष्मतम होने की और विशाल से विशालतम होने का विशेष गुण है; जिसकी व्याख्या कूष्माण्डा करती है.

माँ स्कंदमाता

स्कन्दमाता वो दैवीय शक्ति है जो व्यवहारिक ज्ञान को सामने लाती है- वो जो ज्ञान को कर्म में बदलती हैं.

कात्यायनी

कात्यायनी अज्ञात की वो शक्ति है, जोकि अच्छाई के क्रोध से उत्पन्न होती है. क्रोध अच्छा भी होता है और बुरा भी. अच्छा क्रोध ज्ञान के साथ किया जाता है और बुरा क्रोध भावनाओं और स्वार्थ के साथ किया जाता है. ज्ञानी का क्रोध भी हितकर और उपयोगी होता है; जबकि अज्ञानी का प्रेम भी हानिप्रद हो सकता है. इस प्रकार, कात्यायनी क्रोध का वो रूप है जो सब प्रकार की नकारात्मकता को समाप्त कर सकता है.

कालरात्रि

कालरात्रि देवी माँ के सबसे क्रूर, सबसे भयंकर रूप का नाम है. दुर्गा का यह रूप ही प्रकृति के प्रकोप का कारण है. प्रकृति के प्रकोप से कहीं भूकंप, कहीं बाढ़ और कहीं सुनामी आती है; ये सब माँ कालरात्रि की शक्ति से होता है. इसलिये, जब भी लोग ऐसे प्रकोप को देखते हैं, तो वो देवी के सभी नौ रूपों से प्रार्थना करते हैं.

महागौरी

महागौरी, माँ का आठवाँ रूप, अति सुंदर है, सबसे सुंदर! सबसे अधिक कोमल, पूर्णतः करुणामयी, सबको आशीर्वाद देती हुई. यह वो रूप है, जो सब मनोकामनाओं को पूरा करता है.

सिद्धिदात्री

नवाँ रूप, सिद्धिदात्री, सिद्धियाँ या जीवन में सम्पूर्णता प्रदान करने वाला है. सम्पूर्णता का अर्थ है- विचार आने से पूर्व ही काम का हो जाना, यही सम्पूर्णता है. आप कुछ चाहो और वो पहले से ही वहाँ आ जाये. आपकी कामना उठे, इससे पहले ही सबकुछ आ जाये- यही सिद्धिदात्री है.

The Dangerous Cocktail Of Substandard Drugs And Poor Regulatory Oversight In India

Last week, the Health Ministry suspended an official of India's drug regulatory body the Central Drugs Standard Control Organisation (CDSCO) after he was arrested by the Central Bureau of Investigation (CBI) on charges of corruption. According to a statement by Health Ministry — Dr. Naresh Sharma, Deputy Drug Controller (I) at CDSCO headquarters in New Delhi has been "trapped" and was taken in custody by the CBI on August 16 for investigation. "All stakeholders, public and officers shall take cognizance of the fact that CDSCO has the policy of zero tolerance towards corruption and is committed to act stringently against any act of corruption," the Health Ministry said in a statement. There were no details of the specific corruption charges. Sharma joined CDSCO in November 2006 after over five years in Dabur Research Foundation. He also previously worked in research and development departments at Cadila Pharmaceuticals, JK Drugs and Pharmaceuticals and Paam Pharma. But his arrest coincides with CBI unearthing a major corruption racket where it booked a CDSCO inspector based in Himachal Pradesh. He was allegedly took a bribe, to approve a substandard drug. CBI sleuths have found samples of dobutamine injection made by Amritsar-based Kwality Pharmaceuticals by the firm, which had failed CDSCO trial. But, the drug inspector agreed to approve the samples, in connivance with officers at the Delhi headquarters in exchange for Rs 1 lakh bribe. The agency arrested drug inspector Ankur Bansal, based in Solan in Himachal Pradesh, and some employees of Kwality Pharmaceuticals including its managing director Ramesh Arora. This is not the first case of corruption. However, the involvement of certain elements at highest level of the Indian regulatory body involved in the cases of graft is definitely alarming.

Substandard drugs:- To be sure, the substandard dobutamine injection that Kwality Pharmaceuticals allegedly tried to push through the cracks, is a life-saving drug used for patients suffering from heart failure. If the drug does not work as desired, the patient could die. Substandard drugs have become a major problem. The World Health Organisation (WHO) has estimated that one in ten medical products in low-and-middle-income countries is substandard or falsified. This includes India. A substandard drug may contain no active ingredient, the wrong active ingredient or the wrong amount of the correct active ingredient. They are also laden with impurities, much higher than the acceptable range. Other concern WHO raises about substandard and falsified medical products is antimicrobial resistance and drug-resistant infections. These drugs are out there in the market, because the companies producing them, does not follow current good manufacturing practices and take short cuts for profits, and regulators' poor oversight, in some cases like Kwality Pharmaceuticals it could be just a case of deliberate overlook. News agency PTI, had in June reported that the The Bureau of Pharma PSUs of India (BPPI), which implements Jan Aushadhi scheme, has found 25 batches of drugs of 18 different pharmaceutical companies

to be of substandard quality since January 2018, quoting an official document. While 17 out of the 18 companies are private, one is a public sector unit (PSU) — Indian Drugs and Pharmaceuticals Ltd (IDPL). The government needs to strengthen its GMP inspections, weed out manufacturers who are not adhering to the quality standards. We need to have surveillance and monitoring systems, to check the quality of the drugs in the market. Indian should move towards adopting Pharmaceutical Inspection Co-operation Scheme (PIC/S), a non-binding, informal co-operative arrangement between Regulatory Authorities in the field of Good Manufacturing Practice (GMP), to ensure harmonisation. The government reluctance to adopt PIC/S is said to protect the industry, especially the medium and small pharmaceutical manufacturers, is not convincing. Quality comes with a cost. Too much focus on lowering prices rather than assuring highest quality of drugs sold in the country is also becoming a problem. There is nothing big for the government than the health of its citizens. There should zero tolerance of substandard drugs and those who manufacture and approve them.

5 Common Mouth Problems and Ways to Prevent Them

Our mouth is a breeding ground for bacteria, both good and bad. It is active all the time and can attack your healthy teeth anytime. We always think that brushing our teeth is enough to take care of them, unfortunately not. Many factors affect the health of your mouth including talking, chewing, ageing, etc. Since we put a lot of strain on your teeth, it is extremely important that we maintain its hygiene but before that, we must take a look at some of the common mouth problems that create a problem for us.

Cold Sores:- Cold sores are a common kind of viral infection. They are tiny blisters that usually appear on and around the mouth. Cold sores eventually fall after a span 7-10

days from the day of its onset. Cold sores are not serious but they can be fatal in case a person whose immune system is not strong due to medications or disorders. In some cases, it can lead to a serious complication, for example, if the infection spreads to the eye it can affect the vision.

Tooth Decay:- Tooth decay is the destruction of teeth due to bacteria that lives on the mouth. It changes the carbs you eat into acids. These bacteria and acid form a plaque on the teeth and creates holes in the teeth, which are called cavities.

Periodontitis (Gum Disease):- Periodontitis is serious gum disease and it is common. It means inflammation of the tooth due to the accumulation of bacteria on the surface of the tooth. Over time it leads to tooth loss and affects the bones and the gum as well. It can eventually lead to heart attack, stroke and other health problems.

Dry Mouth:- Dry mouth is not a serious problem on its own, but a symptom of an underlying medical condition. It happens when the salivary glands are unable to produce enough saliva. Saliva helps breaks down the food and protect the mouth against tooth decay and gum disease. The main cause of getting a dry mouth is dehydration, but in some cases, it can also be due to diabetes.

Bad Breath:- Bad breath is caused due to poor dental health habits. It is made worse due to certain health conditions, unhealthy eating habits and foods. Unhealthy oral habits lead to the progression of bacterial growth between teeth and around the gums. This leads to bad breath. Persistent bad breath can also be a symptom of gum disease.

How to Prevent the Onset of Oral Diseases?:- In order to protect your mouth and teeth from infection or diseases, you need to maintain good oral hygiene and keep the teeth and gums healthy.

- Brush your teeth twice regularly.
- Floss daily because it is as important as brushing your teeth.
- Go for regular dental check-ups to keep your oral health in check.
- Eat a healthy diet and avoid sugary and acidic drinks, carbohydrates and sticky food.
- Use mouthwash and clean your tongue regularly.
- Stop smoking.
- Drink a lot of water.

दो डॉक्टर

डॉक्टर साहब ने रोगी से कहा "पहले वाले डॉक्टर ने सही दवा लिखी थी. फिर आप उन्हें छोड़कर मेरे पास क्यों आ गए?" रोगी ने कहा, "पहले वाले डॉक्टर साहब बोलते: ही नहीं हैं. आप दवा कम लिखते हैं, पर हंसाते ज्यादा हैं. यहाँ आकर आधा रोग तो बिना दवा के ठीक हो जाता है.

परीपकार

दूसरों की भलाई के बारे में आज कम ही लोग सोचते हैं. पर इस दिशा में सोचना चाहिए. दूसरों की भलाई करने में जो आनन्द आता है वह अतुलनीय है. निज मन में एक अजीब सी खुशी आती है. इससे आपसी रिश्ते सुधरते हैं और एक अच्छे समाज की रचना होती है.

तरीका

यूँ ही दौड़ते जाना, मायने नहीं रख पाता. सोचकर चल पाना, मंजिल तक पहुँचा आता.

शिक्षा

हर लड़का पराटे, हर लड़की कराटे. निश्चित सीख पाए, जाने कब काम आ जाए.
